The Anixter Difference

As an industry leader in innovative, high-performance network cabling solutions, Anixter provides enterprise cabling and security customers with best-in-class products. With a wide variety of products stocked in 228 warehouses worldwide, Anixter can quickly respond to customer demand with the most comprehensive enterprise cabling offering available, customizable Supply Chain Solutions and leading product and application knowledge.

For years, our unparalleled commitment to technical expertise and our knowledge of market trends has helped our customers make well-informed specification and purchasing decisions about the latest technologies including copper-based 10 Gigabit Ethernet, wireless, fiber optic and IP-based solutions. Our Infrastructure Solutions LabSM allows us to actively demonstrate and evaluate for our customers the best practical technologies from world-class manufacturers in the areas of enterprise cabling, video surveillance and access control. Anixter is UL certified to the ISO 17025 Standard for verified cabling products.

Our goal is to help our customers reduce costs, save time, improve productivity and mitigate risk. By customizing our Supply Chain Solutions, we provide our customers with effective solutions to eliminate costs, stay competitive in the marketplace, address sustainability requirements and confirm that product specifications are delivered where, when and how they are needed.

Business Drivers

- Data center optimization
- Sustainability requirements
- New applications
- Higher bandwidth requirements
- Business process efficiencies
- Convergence
- Competitive edge
- Cost of moves, adds and changes (MACs)

Enterprise Cabling Solutions Product Offering

- Copper and fiber optic cabling
- Racks, cabinets and cable management
- Test equipment
- Installation tools and supplies
- Intelligent infrastructure management solutions (IIM)
- Outside plant infrastructure
- Voice and data networking
- Wireless (LAN, IBW and point-to-point)
- Power distribution and cooling solutions
- Accessories

Principal Services

- Technical support
- Product testing and evaluation
- Supply Chain Solutions
- READY!SM Deployment Services
- eBusiness solutions
- Financial services

TECHNOLOGY

Alliance PartnerSM ANIXTER

From enterprise data centers to security infrastructure to in-building wireless and beyond, Anixter recommends and provides solutions that connect the world's most important information. Delivered directly and through partners, these solutions help today's data-intensive organizations operate more efficiently and maximize the business value of their infrastructures. As a provider of leading-edge solutions, Anixter recognizes the benefits that a joint technology partnership can bring to its customers. That's why Anixter has created the Technology Alliance Partner program with the mission of building long-term partnerships that enable us to deliver comprehensive and proven best-of breed technology solutions.
