The Anixter Difference

With more than 65,000 products in stock, Anixter has the largest and broadest wire and cable product offering in the world. Regardless of your application, Anixter's technical expertise, knowledgeable sales staff, and flexible and innovative Supply Chain Solutions help industrial and OEM customers successfully manage wire, cable, and support and supply product procurement and deployment.

Expertise Tailored to Your Requirements

Anixter's sales specialists and engineers draw on years of experience and training to provide you with world-class technical resources, products and support through offerings, including:

- Code and standard interpretation
- Product selection assistance
- On-site customer training
- Customer specification reviews
- Anixter University℠, a customized learning venue to keep you current on the latest technologies and standards.

Supply Chain Solutions That Optimize Your Business

Anixter's Supply Chain Solutions mitigate risk, lower costs, improve efficiency and is customized to your specific project or business.

Solutions for EPCs and Contractors

READY. DEPLOYMENT SERVICES BY ANIXTER

Winning the project is the first challenge, managing the project to an acceptable return is perhaps the biggest challenge. Anixter's READY!℠ Deployment Services map the deployment of product to the construction schedule to reduce lead times, on-site storage and risk.

Our READY!℠ To Install solutions help to minimize overall scrap, labor effort and costs.

Solutions for OEMs and Contract Manufacturers

READY. MATERIAL MANAGEMENT SERVICES BY ANIXTER

An optimized supply chain can be your greatest competitive advantage. Through our supply chain assessment process, Anixter explores ways to improve the flow of material so you will spend less time, effort and costs managing materials and more time concentrating on your core competencies. READY!℠ Material Management Services by Anixter leverage our distribution and inventory expertise to help customers optimize their inventory with just in time or vendor managed inventory (VMI) programs designed around their business needs.

ELECTRICAL AND ELECTRONIC WIRE & CABLE SOLUTIONS

ANIXTER

Our Products

Electrical Wire and Cable
· Armored
· Building wire
· Flexible
· High-temperature
· Instrumentation
· Medium voltage
· Portable cord
· Power and control
· Shipboard
· Thermocouple
· Utility

Voice and Networking
· Network switches
· Headsets

Electronic Wire and Cable
· Coaxial
· Flat cable
· Lead wire
· Multipair, multiconductor
· Telecom
· Security and audio/video

Industrial Communication and Control
· Fieldbus and Ethernet cabling and connectivity
· Industrial Ethernet networking
· Industrial control products
· Power supplies and power protection devices

Security Solutions
· Cameras (network and analog)
· Video management software
· Servers and storage
· Security infrastructure and low voltage
· DVRs and NVRs
· Access control
· Door locking hardware

Network Cabling
· Connectivity
· Copper cabling solutions
· Fiber optic cabling solutions

Support and Supply Products
· Cable tray
· Enclosures
· Lugs
· Connectors
· Cord grips
· MV terms and splices
· Cable ties
· Wiring duct
· Identification
· Tubing
· Terminals
· Firestop
· Racks and cabinets
· Tools
· Test equipment
