

WHAT CAN ANIXTER DO FOR YOU?

The Anixter Difference

At Anixter, we help build, connect, power and protect valuable assets and critical infrastructures. From enterprise networks to industrial support and supplies to video surveillance applications and electric power transmission and distribution, we offer full-line solutions—and intelligence—that create reliable, resilient systems that can sustain your business and community. Through our unmatched global distribution network, supply chain management expertise and technical know-how, we drive efficiency and effectiveness to benefit your bottom line.

Tailored Federal Solutions

For over 40 years, Anixter has worked closely with federal government entities, serving at home and abroad. As a result, we understand your needs, processes and language. We have the ability to quote complete and complex bills of materials driven by trustworthy, dedicated sales specialists to serve your diverse needs and the fulfillment of your objectives. At Anixter, we take pride in serving our government customers. We hold a large number of contracts with all levels of the United States government across the globe—from Germany to the Middle East—and throughout the United States to assist you with procuring product.
