Electrical Construction Services for Medium-voltage Cable Accessories

Construction Services: On Time
On Budget

3M

Free 3M™ Electrical Construction Services for Industrial and Commercial Projects

Give us your medium-voltage Project 1-line drawings and cable schedule (for 5kV to 69 kV), and we'll give you total, high-quality support from start to finish, at no additional cost.

QUICK & FREE ANALYSIS

Our experienced electrical construction professionals will accurately identify your project requirements to ensure you order exactly what you need - no more worrying about under- or over-ordering. You'll get the right cable accessories, the first time, eliminating the expense of ordering contingency components and reducing inventory.

CUSTOM TAKE-OFFS

Based on your documentation, we create a detailed medium-voltage take-off to meet *your* project application requirements.

COMPLETE KITS

3M will assemble your high-quality termination and splice kits at our ISO-9000 certified plant. We will even include lugs and other hardware as needed so everything is packed in one box and ready to go, with no need to order materials from other suppliers.

CUSTOM LABELING

Save time on-site with boxes that come to you already labeled to correspond with their jobsite location. Each kit will be labeled to your specifications, such as I.D. numbers for circuit, cable and equipment. 3M's custom labeling will allow you to get the right products to the right place quickly and easily.

THE RIGHT PARTS. THE RIGHT PRICE. RIGHT ON TIME.

DIRECT ON-SITE SHIPPING

No need to pick anything up. No matter the project, we'll ship your kit directly to your jobsite, with an optional list of project kit labels sent electronically.

FREE ON-SITE INSTALLATION SUPPORT AND TRAINING

You can't beat 3M's combination of industry expertise and product knowledge. Our experienced professionals will help ensure every installation is done correctly the first time.

FREE ON-GOING TECHNICAL SUPPORT

Got questions or a tough application? Our team of knowledgeable engineers will provide solutions quickly and thoroughly so your job stays on track, on time and on budget.
