

No matter the job, APC has just the right Rack and PDU for you

Find your just-right APC NetShelter or Easy solution from the world's most trusted brand in Rack and rack PDUs.

NetShelter Racks & PDUs

A Green Premium offer line with the more sizes, strength, feature options, and accessories.

- NetShelter Racks: special features like wall-mounting, soundproofing, shock packaging, seismic compliance, and IP54 ratings available.
- NetShelter PDUs: special features like IP address sharing, USB firmware updates, high density of outlets.

Typical applications

- Cloud and service providers, tier 1 & 2 colocation, financial and government.
- All sizes, from small edge deployments to large, high density data centres.
- Custom or highly specific requirements.
- Sustainability is important.

Easy Racks & PDUs

Easy, fast ordering and installation. Simple selection of sizes and most essential features at an affordable price.

- Easy Racks: standardize on a single rack platform and compatible with other Easy products.
- Easy PDU: offers Schuko outlets and intelligent features.

Typical applications

- Small and medium businesses, edge deployments and data centres.
- New customer or segment.
- Common technical requirements.
- Limited project budget or cost-sensitive customers and segments.
