

HIGHEST LEVEL OF DETAIL

FLEXIDOME IP starlight 8000i

With Bosch's new generation of FLEXIDOME IP starlight 8000i fixed dome cameras users can rely on the highest levels of security for mission critical applications thanks to resolutions up to 4K ultra HD with low light and dynamic range capabilities and built-in Intelligent Video Analytics as standard.

Intelligent Video Analytics

Video analytics for extremes

Reliable alerts, even in extreme weather conditions

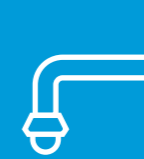

Video Analytics extremely resistant against shaking

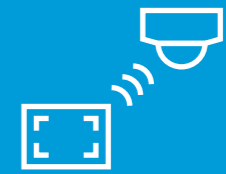

Video content analysis over large distances

Time saving installation

Unified set of accessories

Remote commissioning with the camera's built in wireless module

Reduced installation time

Excellent Image Quality

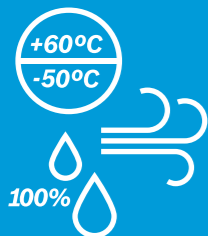

Available in three resolutions to provide the level of detail needed.

	1080p	6MP	4K UHD
	≤ 60 fps	≤ 30 fps	≤ 30 fps
	≤ 134dB	≤ 120dB	≤ 120dB
