

## SYSTIMAX® InstaPATCH® 360DM Module and 360DP Distribution Panel Enhancement

### *Global Communication*

CommScope announces enhanced SYSTIMAX 360DM data modules and 360DP LC pass-thru panels to the InstaPATCH 360 product family. The improved 360DM and 360DP with 24 LC connections (12 duplex LC ports) feature internal spring loaded shutters and latch assist tabs.

These shutters replace the standard external shutters or dust plugs that typically once removed are never replaced, exposing the interior end faces to dust particles and possible damage. Specially designed indents in the shutters ensure that the end faces of the connectors are never touched.

The extended latch assist tabs will allow faster removal of the modules. The changes and modifications have been made to provide greater usability, faster MACs and a better customer experience with the products.

360DMis-24LC-LS

360DPis-24LC-TS

#### Features and Benefits:

- Internal spring loaded shutters automatically actuated by connector insertion/removal, allowing for one-handed operation
- Designed to avoid ferrule contact during connector installation
- Shutter door will illuminate when used with VFL
- New latch assist provides easier module removal for faster MAC

#### Ordering Information:
