

SYSTIMAX® iPatch® Panel Manager – Limited Availability

Global communication

CommScope announces limited availability of SYSTIMAX 360™ iPatch Panel Manager and Network Manager. Effective October 31, 2015, these products will be discontinued.

The SYSTIMAX imVision® Controller provides both Panel Manager and Network Manager functionality in a single unit and thus is a **direct replacement** for and is **backward compatible** with RM+ (v2 & v3), Panel Manager and Network Manager.

Panel Manager

Network Manager
