

Discontinuation of Floor and Wall Cabinets Europe and Mid-East/Africa Regions, Internal Communication

CommScope will be exiting the cabinet business by mid-2015 in all global regions. The network cabinets, server cabinets, and cabinet accessories will be discontinued effective June 30, 2015 in the EMEA region. Wall mounted cabinets were discontinued May 1, 2014. The Product Catalog will be updated with obsolescence indications for the remaining EMEA region products and no orders will be accepted after June 30, 2015.

Please note:

- There will be no replacement parts or identical products offered.
- Customers needing cabinet or cabinet accessory products should be advised to work directly with the distributor or cabinet manufacturer of their choice. For reference, our regional network and server cabinets were supplied by Conteg and Rittal.
- Racks and hinged-door VCM products are not affected.

The MID's which are impacted are:
