

Think CompuLink-USA for Healthcare

CompuLink-USA proudly offers the high-quality structured cabling solutions hospitals and healthcare facilities need to provide cutting-edge, patient-centered care. With 35+ years of experience, CompuLink-USA guarantees exceptional performance and rapid delivery, enabling quicker network installation.

We understand that quality care relies on critical information from technologies such as:

Digital imaging | Patient monitoring equipment |
Smart beds | Ultrasound devices | And more

These solutions require robust structured cabling systems that can handle growing demands for network speed and bandwidth. CompuLink-USA understands these complex issues and can help.

We are Anixter exclusive and an EDGE program partner. Approved supplier since 1984. Top tier supplier/customer.

ANIXTER

The **CompuLink-USA** Difference

Competitive Cost

CompuLink-USA has reduced the lead time from weeks to days while providing the same level of performance, all at a price lower than brand name solutions. CompuLink delivers:

- Aggressive component sourcing
- Project pricing
- Lower labor cost achieved through automation

Rapid Delivery

Don't let the three to six week lead times of traditional suppliers slow down the deployment of your healthcare facility project. CompuLink-USA offers:

- Exceptional lead times
- Outstanding responsiveness
- Flexibility
- Same-day shipping available
- Global shipping capability

High Quality

Compatible with almost all chassis and modules, our fiber cables save both time and money without sacrificing performance.
