

# MEETING CONNECTIVITY EXPECTATIONS

Meeting connectivity expectations and data demands in health care, hospitality, campuses and office buildings is challenging. Is your facility ready?

Whether your concern is employee accessibility or visitor experience – connectivity and convergence is key for every facility.

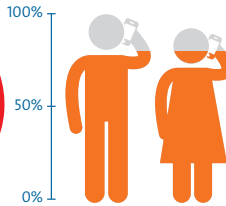

**CORNING**  
ONE™ Wireless  
Platform

## Why Corning ONE™ Wireless Platform Can Make the Difference

Corning ONE™ Wireless Platform is the first all-optical converged solution that unifies cellular, Wi-Fi and Ethernet backhaul. This innovative platform allows for virtually unlimited bandwidth to support the growing demands of wireless users.
