4" CABINET EXTENSION

Has this ever happened to you? You just purchased a new server, only to find out that your existing enclosure isn't deep enough. We have a solution - Great Lakes Case & Cabinet now has cabinet extensions for our popular, E Series line of enclosures. Cabinet extension kits come in 4" increments and are stackable to get up to 8" of additional equipment depth on the front, the rear, or both allowing for up to 16" of added depth to your enclosure. The kit comes with easy to assemble instructions and allows you to re-hang your existing door on the cabinet extension. The integrated power strip bracket will also allow you to mount a power strip in the new space gained.
