The Industry Weapon License

At Industry Weapon, our mission is to provide the simplest, most effective digital signage service on the market. For the life of the license, we provide clients access to our:

Free, Unlimited Training

We offer our clients a wide range of training resources, from an LMS course with videos to live calls. All levels of training are available to our users, whenever they need it, for free. We leave it up to our customers to decide when they need further training sessions after onboarding. We'll train as many employees as needed, and we're always happy to provide refresher courses.

Free 24/7 Support

Our U.S based Support Team is available 24 hours a day, 7 days a week, 100% free. We never charge customers for any issues they might experience with our solution. This free-of-charge support system works in our favor because customers are more inclined to call about tiny issues, which helps us catch issues long before they become big problems.

Free Weekly Content

We update your digital signage displays every week with fresh, interesting and relevant content.

Categories include:

- “Joke of the Week” keeps screens light hearted and G-rated.
- “This Week in History” gives a little insight into the past.
- “Great Quote of the Week” is inspirational to any audience.
- “Word of the Week” expands vocabularies with a new word each week.
- Holiday and Seasonal Videos

Free Applications

Our free applications help transmit integrated data and content to your screens!

- PowerPoint Publisher
- Basic Fundamentals Content Program
- System Diagnostics Notifications
- Fullscreen Weather
- Globalcast
- Channel Changer
- On-Demand Content
- Remote Editor

FAQ's

Q) What if I want to purchase an additional modul or integration?

A) All modules and integrations can be purchased a la carte.

Q) What kind of softwares do you integrate with?

A) Industry Weapon is capable of integrating with numerous software products. From iCal to Delphi event manager, name a product and our team can make it an integration!

Q) Are there any data sources that you do not integrate with?

A) If you have a data source that you would like to integrate with, Industry Weapon is the right choice. However, integrations must be purchased at an additional cost. Examples of these are PingFederate, MySQL, Oracle, SharePoint, and Daptiv.
