

XProtect®  
Smart Client

# The power of choice

XProtect®  
Web Client

XProtect®  
Mobile

XProtect® Corporate

Milestone XProtect® open platform video management software (VMS) integrates with the industry's widest choice in cameras, giving you the freedom to choose equipment according to your needs and budget. Now Milestone is proud to offer

users more choices with three flexible ways to view surveillance: the XProtect Smart Client, XProtect Mobile and the new XProtect Web Client. Designed by Milestone, XProtect clients work with all XProtect VMS products\*. With the ability

to access video from various locations as well as computers and mobile devices, there is an XProtect client to suit all user needs.

*\*Functionality and support of the clients is determined by the specific XProtect product or product versions*

XProtect® Enterprise

### XProtect Smart Client

### XProtect Web Client

### XProtect Mobile

XProtect® Professional

XProtect® Express

### ***Easily manage security installations***

Proven in more than 100,000 installations around the world, the XProtect Smart Client is an easy-to-use interface for daily operation of all XProtect VMS. It fulfills your video management needs whether you have a basic or an advanced installation because it is easy to adapt for different tasks, operator requirements and specific working environments. With support for third-party integrations, such as video analytics and access control, the XProtect Smart Client has a wide array of features to view video, gain situational awareness, respond to alarms, investigate incidents and handle evidence.

XProtect® Essential

### ***Connect instantly from any computer***

A complement to the XProtect Smart Client, the XProtect Web Client is a streamlined, efficient web-based interface for viewing, playing back and sharing video. It provides instant access to the most commonly used functions, and it is quick to learn and simple to operate for users of all levels. The XProtect Web Client provides the ultimate freedom with the ability to use all the most common browsers and computer operating systems, including Mac® computers. With no need to install additional software, you can monitor your XProtect system anywhere from any Internet-enabled computer or device.

*The XProtect Web Client 1 is compatible with the following operating systems: Microsoft® Windows®, Linux and OS X® and the following web browsers: Internet Explorer®, Safari®, Chrome™ and Firefox®*

XProtect® Go

### ***Keeping you close to what's important***

View video from your XProtect system from almost anywhere on your smartphone or tablet with XProtect Mobile. Available as a free download on the App Store<sup>SM</sup> and Google Play, XProtect Mobile gives instantaneous access to your surveillance from almost anywhere around the globe via Wi-Fi, 3G or 4G connections. With XProtect Mobile you can view and play back video, control outputs and push live video from your device's camera by using Video Push. This add-on\* feature lets you easily share live video evidence, giving immediate visuals of incidents no matter where they occur.

*\*An additional camera license is required for each user of Video Push. The price of the camera license is determined by the user's XProtect VMS product*

## Comparison chart

Key Features	XProtect Mobile On-the-go functionality	XProtect Web Client Simplified surveillance	XProtect Smart Client Feature-rich management
View video, play back recordings and control pan-tilt-zoom cameras	✓	✓	✓
Push video from mobile device camera to XProtect system	✓		
Access XProtect system from non-Windows PC		✓	
Share or export video		✓	✓
View and respond to alarms			✓
