NOTE: Program qualification is solely determined by and at the discretion of TRENDnet. Sales are reviewed quarterly to determine partner level status, however the discount earned will be put into place for the full year. Additionally, resellers have the ability to move up but not down in their eligibility status. By joining TRENDnet's upTREND partner program, the reseller agrees to adhere to TRENDnet's advertised pricing policy. See trendnet.com/MAPpolicy for more information.
