March 16<sup>th</sup> 2020

To our valued ADC customers,

Thank you for your business and the opportunity to continue to serve you. We would like to take this opportunity to update you on our efforts to help you keep your operations up and running during this time of uncertainty as we together face the COVID-19 pandemic.

We are closely monitoring the latest reports and information from the Centers for Disease Control (CDC) and the World Health Organization (WHO) and adapting to the situation as we see necessary to maintain normal business operations. We are in constant contact with our raw material suppliers as well as our freight carriers. Our goal is to do everything we can to help keep your operation running and people safe during this unprecedented and evolving situation.

We maintain the advantage of having numerous redundant and decentralized assets to ensure the lowest risk of disruption. We are also following all CDC guidelines, including temporarily limiting all visitors, to maintain the safety of our employees and prevent the spread of the virus. Currently our facilities are operating at full capacity and without issue and our customer service center is open and fully operational.

ADC wants to reassure you that our inventory levels and inflow of raw materials remain uncompromised at this time. However, we understand the situation is evolving daily and has the potential to deteriorate rapidly. ADC is determined to be candid and we will communicate to all of you the appropriate information as things evolve.

We hope and pray that you may remain healthy, safe and positive during these challenging times.

Sincerely

Wade Most  
VP Sales & Marketing
