March 20,2020

Dear Valued Customers,

Due to the Covid-19 virus, Governor of the State of New York, Andrew Cuomo, announced yesterday, all non-essential businesses in the state of NY must comply with a mandate to have at least 75% of their employees not report for work, or if possible work from home until further notice.

While it is our intention that we will continue to perform and meet the needs of our customers, this situation may cause some delays to our originally promised delivery schedule.

As we together face these unprecedented circumstances, please know that we are taking necessary steps to ensure the health and safety of our employees and to meet the needs of our valued customers. We understand that these environmental circumstances could potentially deteriorate. Rest assured, we will continue to strive to meet our commitments.

Your sincerely,

Dick Chen
