

ANTAIRA ANNOUNCEMENT

COVID-19 Update: Antaira's Response

Here at Antaira Technologies, we are continuing to serve our customers and community through these complicated times. Right now, Antaira will remain open and continue to operate in compliance with the State of California's ordinance. With new restrictions placed on our California Headquarters and other parts of the United States, Antaira is forced to proceed with some business practices online where employees work from home, ultimately for our employees' health benefit.

We are taking these orders seriously, but again, Antaira will remain open for business with products in stock to support critical networking infrastructures as well as other vertical markets with our industrial networking equipment. At this time, we will be shipping solely with delivery companies, there will be no in-person pickups.

Antaira strives to provide top-notch customer service and support, with these changes, our hours have been updated for our technical support team while our sales team hours continue to operate as usual; their hours are listed below:

Technical Support: 9 AM - 5 PM PST

Sales Support: 6 AM - 6 PM PST

Thank you for your understanding and please reach out to us for your industrial connectivity needs: (714) 671-9000. We're in this together, let's support each other!
