Subject: Update on CIT Nogales, MX operations

Dear Customer,

The purpose of this letter is to update you on our previously communicated closure of our Nogales, MX operations mandated by the State of Sonora.

We received governmental clearance to resume partial production on April 20th with a significantly reduced workforce to facilitate social distancing.

Over the past two weeks, our customer service teams have been working with our customers to manage both the impact of the closure along with the change in customer demand. They are and will continue to be your best channel to communicate your priorities.

Please be assured that we are doing everything possible to meet our commitments and to support you through this crisis, but, our first priority is the health and safety of our employees and their families and on following government directives as they evolve. Please understand that it may be difficult for us to provide precise impact and recovery details due to the rapidly changing situation for us and our suppliers but that we are committed to providing more clarity as the situation becomes more stable.

Sincerely,

Brian Montgomery
