COVID-19 Update

and our commitment to
our valued customers

As the impact of COVID-19 continues to spread across the country and globe, we have two main priorities at Clinton Electronics: caring for the health and safety of our employees and doing everything we can to take care of the needs of our customers.

What we are doing:

Clinton Electronics is doing everything possible to decrease the spread of COVID-19. The majority of our employees are working remotely from home during this time. We are also strictly adhering to the guidelines set forth by the CDC and our local officials.

Taking extra precautions:

Our warehouse is shipping, and we've made significant precautions to ensure both the safety of our small dedicated on-site staff and the hygiene of our orders. We will continue to operate our Loves Park, IL facility, with the bare minimum staff required. We are also taking extra precautions by washing hands frequently, deep cleaning, disinfecting all incoming packages, maintaining a safe 10-foot distance from each other, and not allowing any outside visitors.

We are here for you:

We remain committed to providing exceptional service and support to our customers during this challenging time.

We want to hear from you and help you navigate through the COVID-19 crisis together. Please do not hesitate to call, text, email, or chat with us on our [website](#).

We appreciate your business, patience, and trust during this time.

Stay safe!

- Dan Clinton
