

MEMORANDUM

Date: 9 March 2020
From: Digital Watchdog Corporate Office
To: Digital Watchdog Customers
Re: Novel Coronavirus (Covid-19) Outbreak

The global novel coronavirus outbreak has not disrupted the Digital Watchdog supply chain.

We carefully monitor the global logistics situation and how it continues to be impacted by the health crisis. Currently, we foresee the potential for minor changes to our processes. This may change our deliveries in the future, but not at this time.

Digital Watchdog manufactures our products in South Korea and Vietnam, with further provisioning executed in Cerritos, California and Tampa, Florida. The rapid response to the outbreak in these countries has precluded any potential disruption to our supply chain.

The Digital Watchdog products you see advertised at www.digital-watchdog.com and through our vast network of distribution partners are available for purchase today, and for the foreseeable future.

Further, both technical support teams in California and Florida are fully staffed and ready to support you. If you have any questions about Digital Watchdog products and services, please contact one of our sales professionals.

Sincerely,

Mark Espenschied
Director of Marketing
Digital Watchdog Complete Surveillance Solutions
