Dear Andrew,

As of today 2/28/2020. EnerSys does not anticipate any interruption in supply to Anixter. That said; we are aware that the Coronavirus is a concern and we monitor the effect it can cause to supply related issues daily.

EnerSys will make Anixter aware if/when we feel our supply position is compromised due to the Coronavirus. Please feel free to contact me if you have any questions or need more information.

Thanks,
