

March 23, 2020

This letter is to update our customers regarding the recent Executive Order in Connecticut placing restrictions on workplaces deemed “non-essential.”

Times Microwave Systems performs a significant amount of work that is in direct support of multiple Defense Prime Contractors and the U.S. Department of Defense (DoD). Therefore, as part of the Defense Industrial Base, we are exempt from this order and will remain open. We have flowed this same message down to our key and critical sub-tiers.

Our priority remains keeping our team safe and supporting our customers. We appreciate your partnership in this endeavor and will continue to keep you updated on our status as events unfold.

A handwritten signature in black ink, appearing to read 'Bill Callahan'.

Bill Callahan
General Manager
Times Microwave Systems
