TO ALL UTILCO Customers:

UTILCO has been monitoring the Coronavirus COVID-19 issue with special care on our supply chain. At this point, all of our major suppliers are operating as normal and we do not anticipate any disruptions to our supply chain.

As a vertically integrated North American manufacturer, our own internal operations are also producing as planned as well.

Of course, this is a very fluid situation, and all is subject to change as governmental restrictions and various hotspots appear throughout the world.

Thank you for your support of UTILCO and please let us know any questions you might have.

Very best regards,

UTILCO Supply Chain Team
