Products. Technology. Services. Delivered Globally.

ANIXTER®

Anixter has been serving electrical contractors for more than 50 years. During this time, Anixter has learned how to meet the unique requirements of the electrical construction industry. With more than 450,000 products from 7,000 suppliers, Anixter has the world's broadest offering and largest inventory of wire and cable. As a globally recognized industry leader with worldwide deployment capabilities, Anixter is able to leverage its core competencies in material management to scale deployment and replenishment processes and to allocate inventory to meet demand. Regardless of the type of job you have, Anixter's highly trained technical experts and sales specialists will supply you with the right products and solutions to help you save time and money.

Electrical Wire and Cable

Anixter can fill all of your commercial and industrial application needs to help keep the job on time and under budget. With products available for permanent, flexible or portable applications, Anixter's industrial and commercial cabling experts can help you select the most suitable product for your application.

- THHN wire
- XHHW wire
- USE wire
- Copper or aluminum
- Portable cord
- Medium voltage

- Tray cable
- Shielded cable
- VFD cable
- High-temperature cable
- Control cable
- MTW wire

- Steel or aluminum interlocked armor Type MC cable
- Instrumentation cable
- Ground wire
- Welding cable

Support and Supply Products

By shipping your support and supply products along with your wire and cable products in one single shipment, Anixter can help save you time and money. This means less nonproductive time (inventorying multiple shipments) and more productive time (installation) to make sure the job is completed on time.

Connectors
- Lugs
- Coax connectors
- Armored cable connectors
- Medium-voltage terminations and splices
- Cord grips

Cable Tray
- Electrical cable tray
- Basket tray

Electrical Enclosures
- Commercial
- Industrial

Cable Protection
- Wiring duct
- Raceway
- Abrasion protection
- Tubing and sleeving

Cable Management
- Cable ties
- J-hooks

Identification
- Printers
- Labels

Consumables
- Tape
- Poly pull line
- Lacing cord
- Cable gel pulling lubricant

Low-Voltage Cable

With more than 5,000 constructions globally available, Anixter has the world's largest and broadest offering of low-voltage cable. Our wide range of multiconductor and coaxial cables is designed for applications such as security, audio/video, industrial communications and more.

- Audio/video
- Coaxial (RG)
- Communication
- Computer cables
- Direct burial
- Fiber optic
- Fire alarm

- Flame retardant
- Security
- Access control
- Flexible cables
- High-temperature cables
- Intercom/paging
- Low smoke

- Plenum and nonplenum
- Shielded and nonshielded
- Telecommunications
- Speaker wire
- CCTV camera cable

Security Solutions (Analog and Network)

Whether protecting critical infrastructure or commercial assets from theft, attack or sabotage, a robust security system is a vital factor in any company's physical security program. Through its technical leadership and educational opportunities, Anixter can help you make informed decisions about the latest products, services and best practices to better meet your security needs.

- Video surveillance
- Access control and door-locking hardware
- Network cabling infrastructure
- Sound, paging and mass notification
- Low-voltage wire and cable
- Accessories
- Analytics
- Recording and management platforms
- Servers and storage
- Security consoles

Network Cabling Solutions

Anixter provides best-in-class high-performance network cabling products capable of completing end-to-end solutions for voice, video and data networks. With over 2,700 highly trained sales representatives and the Infrastructure Solutions Lab[SM], we can assist you in selecting the best products and right solutions to fit your needs.

- Copper cable (Category 5e, 6 and 6A)
- Fiber optic cable
- Connectors
- Jacks
- Faceplates
- Patch panels
- Patch cords
- Racks and cabinets
- Cable management
- Grounding and bonding
- Cable runway, raceway and wire mesh
- Distributed antenna systems (DAS)
- Innerduct
- J-hooks
- Cable ties
- Labeling
- Tools
- Test equipment
- Uninterruptable power supplies (UPS)
- Power strips
- Surge suppressors
- Building entrance protection
- Networking and wireless electronics

Solar Products

Whether it's wire and cable, connectors, fasteners, combiner boxes or cable management products, Anixter provides a comprehensive solution for all of your solar power applications. Products intended for use in either photovoltaic (PV) or solar thermal applications are readily available and can be bundled together to offer a custom solar solution.

- PV wire
- USE wire
- RHW power cable
- Solar connectors
- Sunlight-resistant cable ties
- Edge clips
- Combiner boxes
- Battery cable
- Physical support products
- Grounding solutions
- Array kits
- PV jumpers and pigtails

ANIXTER

Industrial Communication and Control Solutions

Anixter brings IP networking knowledge to the process industry and the factory floor to help you migrate mission-critical industrial control systems from traditional fieldbus applications to Ethernet-based plug-and-play solutions.

- Industrial networking products
- Fieldbus connectivity
- Wiring devices
- Power devices
- Industrial enclosures

- Industrial control products
- Cable management
- Industrial copper Ethernet cabling and connectivity
- Industrial fiber solutions
- Industrial Fieldbus cables

- Electrical and electronic wire and cable
- Installation tools and supplies
- Network measurement and troubleshooting tools

Our Supply Chain Solutions

Getting the job done right the first time requires a partner who understands the challenges customers face with project deployments. At Anixter, we leverage our core competencies in material management to help you understand the best process for optimizing your supply chain. Our Supply Chain Solutions map the deployment of product to the construction schedule to reduce lead times, on-site storage and risk.

READY TO INSTALL BY ANIXTER

- READY!^{SM} To Install
- Cut to circuit length and tagging

- Phase taping
- Parallel and PARAPULL^{SM}
- SpeedPull^{SM}

- Spinning WEMCO reels
- Installed pulling eyes
- Lagging
