

How do you reduce cost, save time and increase efficiency of your commercial building projects?

COMMERCIAL BUILDING DEPLOYMENT SOLUTIONS

Delivering commercial building projects on time and under budget can be a challenge for project managers. Understanding the various phases of commercial building tenant improvements and new construction can mitigate the risk of underperforming projects and offer better sub-contractor and third party collaboration to achieve efficiency and cost reduction.

COMMON BUILDING TENANT IMPROVEMENT SCHEDULE

WHAT WE HEAR

Challenges from the various commercial building stakeholders are:

Meeting deployment
SCHEDULES

COORDINATION of
multiple services

Ensuring business
CONTINUITY

Material deployment
DELAYS

Maintaining
CONSISTENT standards

Only 31% of end users surveyed had projects that came in within **10%** of budget in the last 3 years.

**Infrastructure
as a Platform**
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to support commercial building deployments.

ON-TIME, UNDER BUDGET COMMERCIAL BUILDING DEPLOYMENT

The Anixter Approach

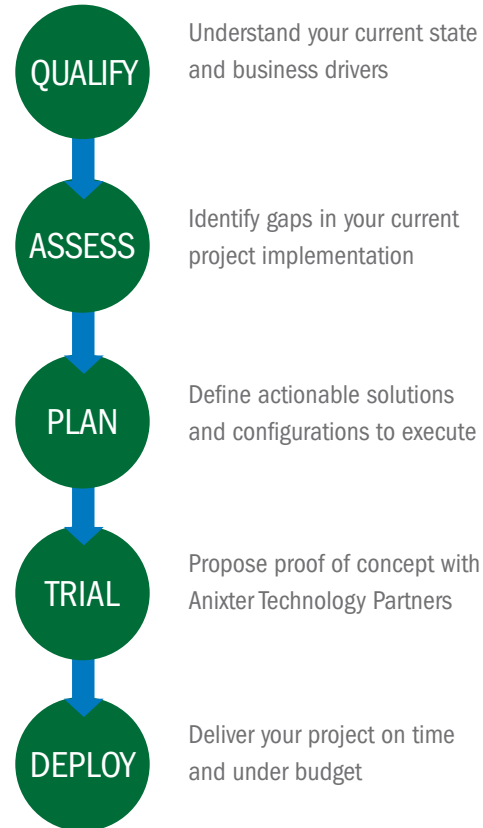

Our approach provides a clear set of guidelines and best practices for supporting commercial building deployments

- Sourcing**
 Manufacturer relationships and knowledge of products and applications can help you to reduce the amount of resources required for sourcing materials.
- Inventory Management**
 Reduce risks and costs by leveraging facilities, managing inventory levels and anticipating lead times.
- Product Enhancement**
 Reduce time and costs by packaging site-ready products prepared for installation.
- Global Logistics**
 Leverage global, regional and local insights and supplier networks to mitigate the risk of project delays.
- E-commerce**
 Provide real-time visibility into inventory, technology selection and project status for improved transactional processing and operational efficiencies.

YOUR DEPLOYMENT PLATFORM

Anixter Engagement Process

You can further improve your commercial building deployments by leveraging our expertise with the following customized solutions:

PRODUCT SOLUTIONS

- Interoperability testing
- Custom part numbers for unique configurations
- Life cycle and asset management
- Scheduled deliveries and specialized delivery services (lifts, etc.)
- Contractor kitting options optimized for installation
- Rack/cabinet/enclosure pre-assembly and configuration
- One part number for each unique configuration
- Configured site-ready material
- Anixter Inventory Management Solutions (AIMS)
- Product pre-assembly and off-site configuration
