

How do you improve care with the efficient and accurate flow of information?

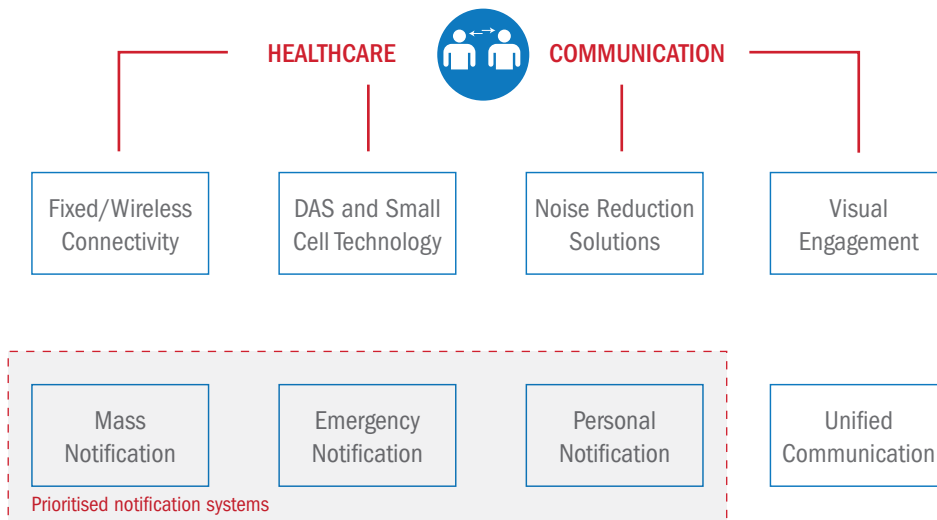

HEALTHCARE FACILITY COMMUNICATION EFFICIENCY

Research shows that good communication is the driving force behind quality care. Improving responsiveness, providing seamless wireless availability and reducing noise pollution require targeted healthcare engagement, where new technologies can simplify the flow of information between healthcare staff, patients and administrators.

COMMUNICATION ENGAGEMENT TECHNOLOGY

GOAL: IMPROVED DOCTOR – STAFF – PATIENT COMMUNICATION

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

- Improving **RESPONSIVENESS** of patient care
- Administering **SEAMLESS** wireless availability
- Initiating **EMERGENCY** management
- Reducing **NOISE** pollution
- Providing **DIRECTIONAL GUIDANCE**

70% of treatment delays in the hospital are caused by communication breakdowns.

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to targeted healthcare engagement in your patient-centred environment.

TARGETED HEALTHCARE ENGAGEMENT

The Anixter Approach

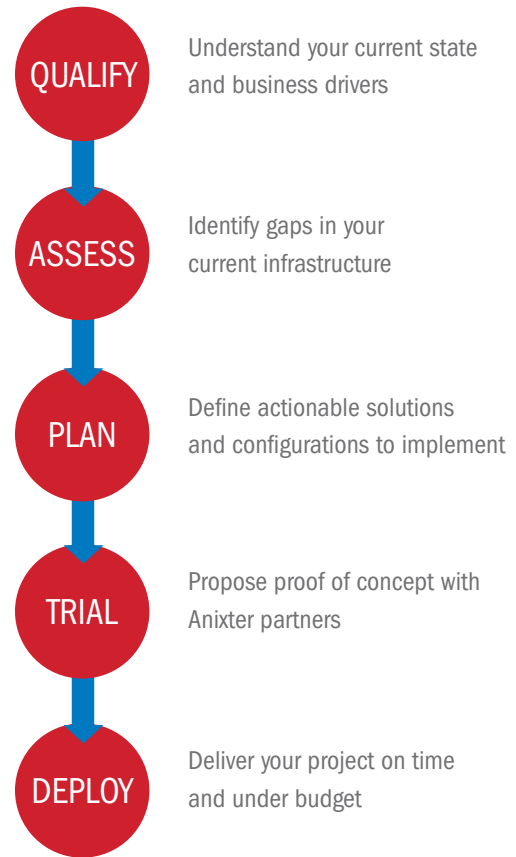

Our approach provides a clear set of guidelines and best practices for supporting targeted healthcare engagement throughout your facility.

- Visual Engagement**
 Support the new ways that people deliver and consume information through digital signage and mobile devices.
- Personal Notification**
 Simplify individual communication between medical staff, patients and administrators to increase satisfaction and accuracy.
- Mass Notification**
 Capture the attention of staff and visitors and deliver vital information through mass notification solutions.
- Unified Communication**
 Choose the appropriate communications equipment to provide a high-quality voice, data and video experience for employees.
- Noise Reduction**
 Increase patient satisfaction and outcomes in various environments with well-designed noise reduction solutions.
- Emergency Notification**
 Provide direction to act and communicate to multiple groups, enhancing responsiveness and improving care.

YOUR COMMUNICATION EFFICIENCY PLATFORM

Anixter Engagement Process

You can further enable interoperability by leveraging our expertise in technology sourcing, inventory management, product enhancement, logistics and eCommerce tools.

PRODUCT SOLUTIONS

- Distributed Antenna Systems (DAS)
- Small Cell technology
- Wi-Fi
- VoIP telephones
- Wired and wireless headsets
- Audio conferencing equipment
- High-definition large-format displays
- Networked digital signage infrastructure
- Mass notification systems
