- Job reconciliation
- Kitting
- Job boxes
- Bluetooth/GPS product tracking
- On-site inventory control systems
- Change order management
- Value engineering
- Custom delivery methods
- Special labeling
- Tailored packaging

ELECTRICAL CONSTRUCTION CHALLENGES

PROJECT MANAGEMENT

Electrical projects are often in harsh environments that limit clean storage and laydown areas. Storing material on-site can increase handling labor, damage, theft and loss that can lead to delayed jobs and cost overruns. Having the right usable material available, at the right time is imperative to staying on schedule and within budget.

PRODUCT SELECTION

Commercial and industrial projects often require products that can handle more rugged applications than residential projects. Acquiring products that can meet the conditions, applications and code requirements can be a challenge.

HOW WE CAN HELP

Anixter's network of highly trained wire and cable, switchgear, lighting, industrial communication and control and electrical infrastructure specialists are ready to help you make informed decisions about the vast product offerings available for industrial applications. Our ability to manage materials to meet your project requirements reduces unproductive labor, decreases scrap, excess, damage and theft, mitigates your risk and increases your financial leverage.

ANIXTER TECHNICAL EXPERTISE

TECHNOLOGY SUPPORT SERVICES

Anixter's Technology Support Services consists of specialists and technical experts with years of experience who guide the proper selection of products and solutions to maintain system reliability and longevity.

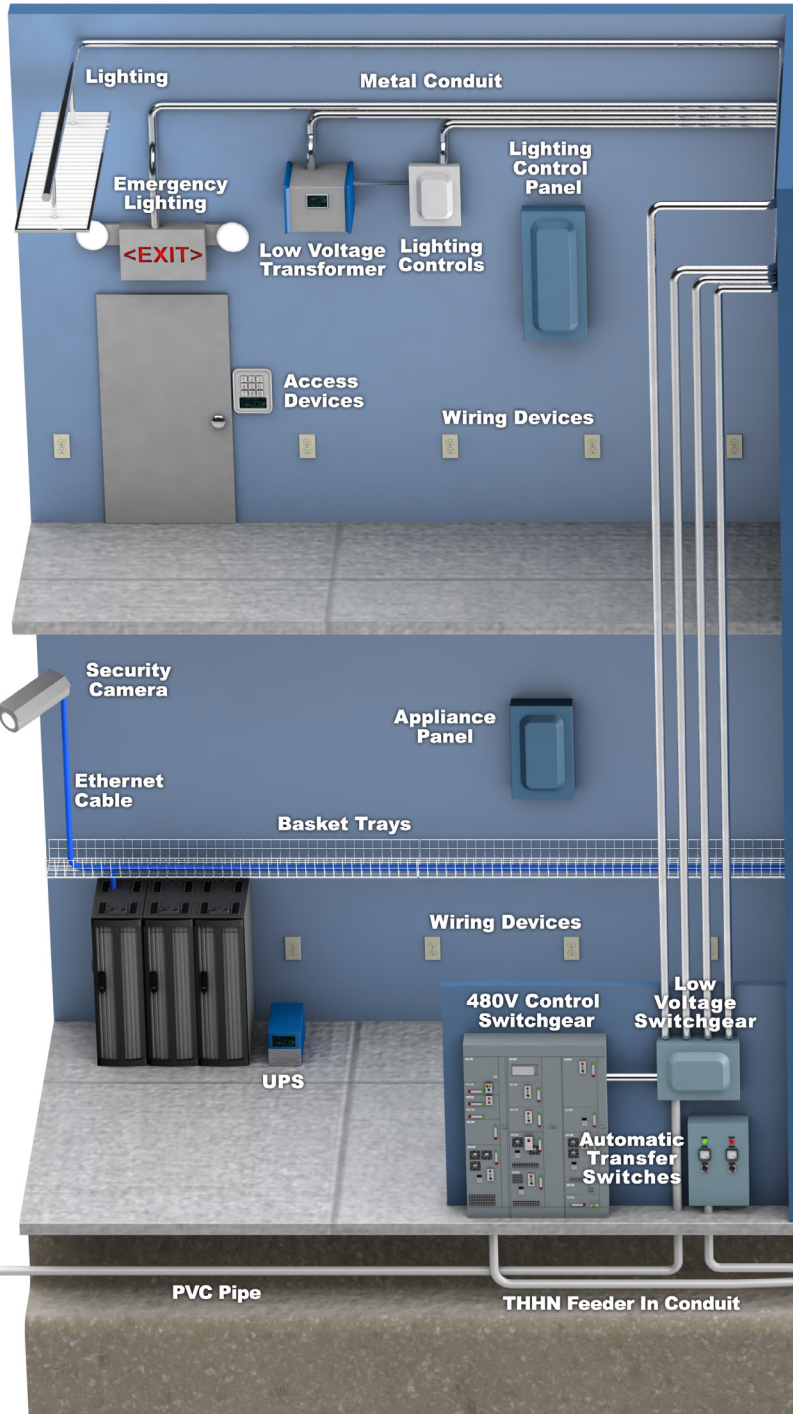

PROJECT MANAGEMENT

Anixter provides product management of materials that includes just-in-time delivery, local warehousing, on-site material management, product enhancements, change-order adjustments, reporting and more.

COST-CUTTING SOLUTIONS

Anixter develops solutions to reduce costs by implementing innovative methods of procuring, packaging, delivering and managing products. Working closely with your project managers to understand the scope of work, our specialists can offer cost-cutting alternatives custom configured to meet your job requirements. Each project has its own challenges and we strive to offer solutions that are specific to your job.

Commercial

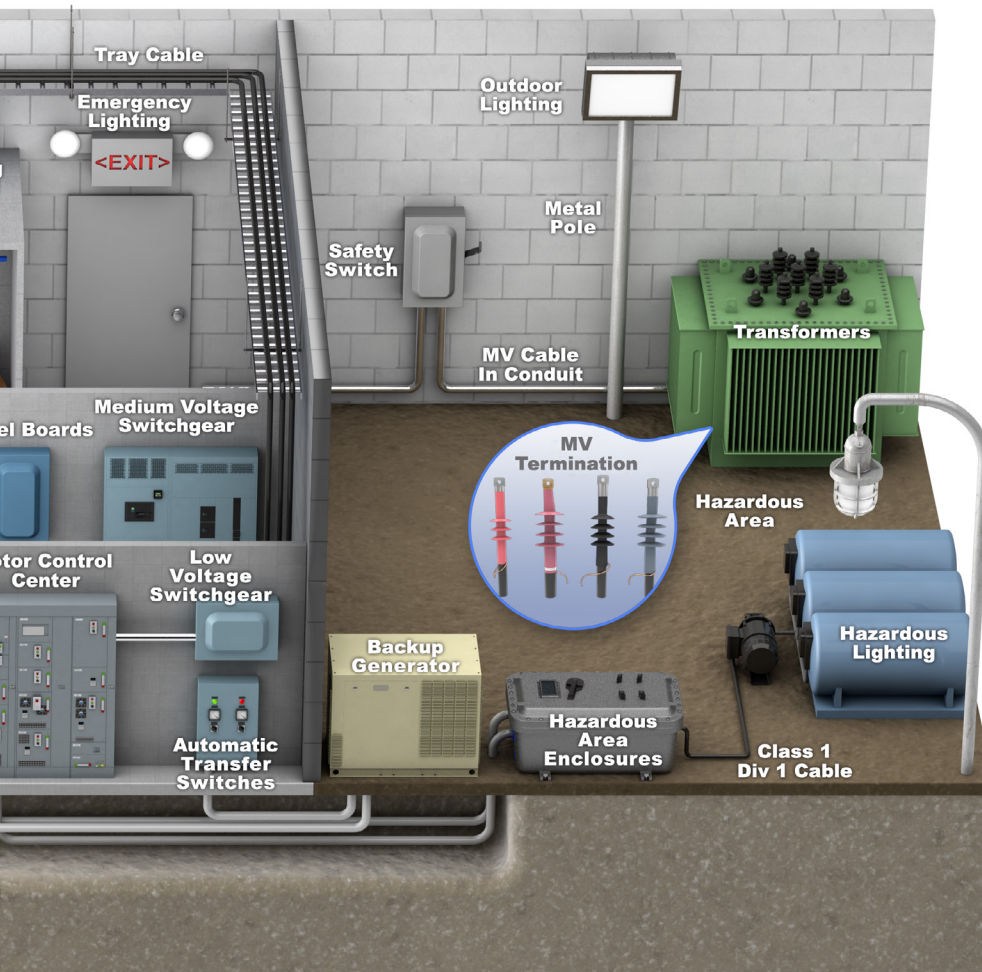

Industrial

From commercial to industrial to hazardous, we have integrated electrical solutions to meet your unique environmental needs.

Hazardous Outdoor

WIRE & CABLE

- Medium voltage cable
- Instrumentation cable
- Variable frequency drive cable
- Tray cable
- Building wire
- Armored cables

LIGHTING

- LED
- High bay
- Low bay
- Lighting controls
- POE
- Hazardous location

SWITCHGEAR

- Panel boards
- Low and medium voltage switchgear
- Transformers
- Inverters
- Safety switches
- Automatic transfer switches

INDUSTRIAL COMMUNICATION

- Industrial Ethernet cables
- Industrial fiber optic cables
- Industrial Ethernet switches
- Patch panels
- Copper and fiber patch cables
- Zone boxes

INDUSTRIAL CONTROLS

- Drives
- Breakers
- Power supplies
- Motor starters
- Enclosures
- Disconnects

ELECTRICAL INFRASTRUCTURE

- Pipe and conduit
- Cable tray
- Terminations
- Wiring devices
- Fastening devices

SECURITY AND INTRUSION

- Cameras
- Servers
- Access control

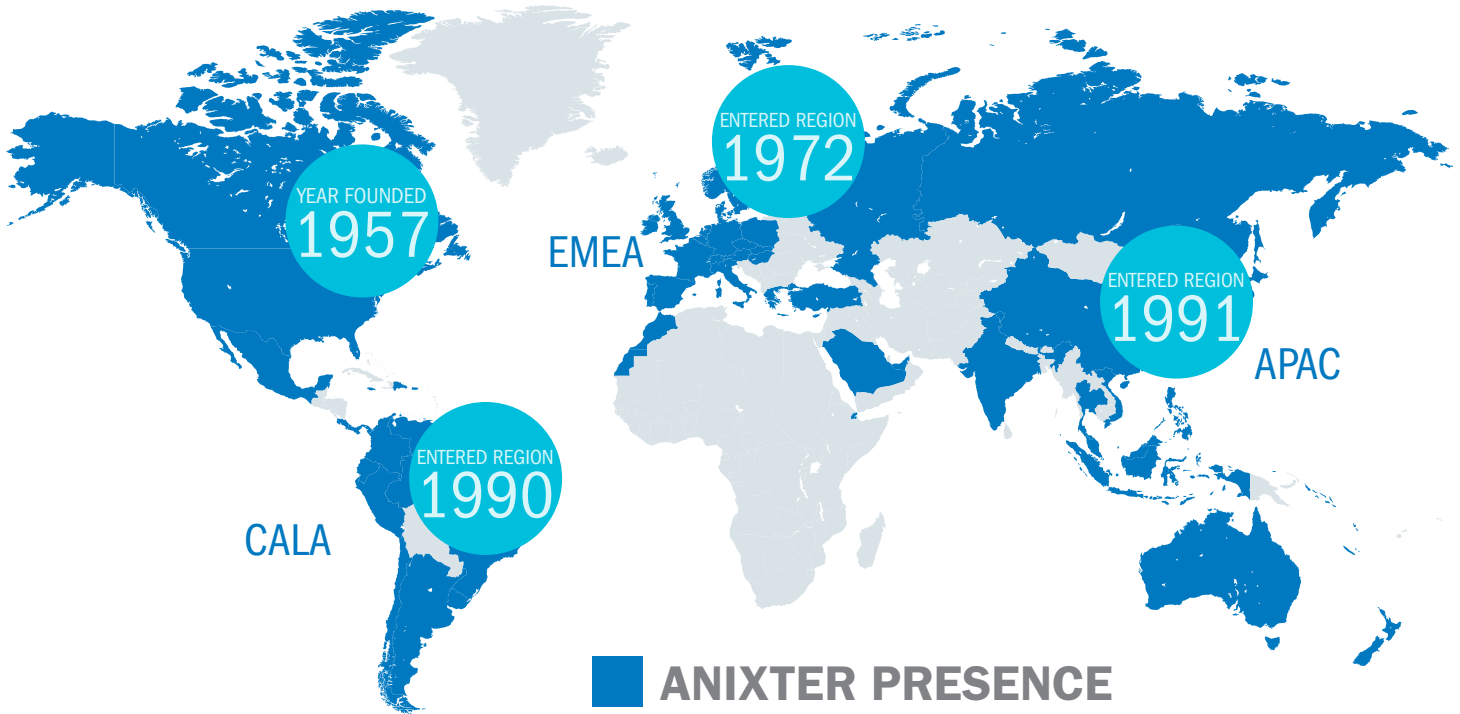

THE ANIXTER DIFFERENCE

At Anixter, we help build, connect, power and protect valuable assets and critical infrastructures. From enterprise networks to electrical support and supplies to video surveillance applications and electric power transmission and distribution, we offer full-line solutions—and intelligence—that create reliable, resilient systems that can sustain your business and community. Through our unmatched global distribution network, supply chain management expertise and technical know-how, we drive efficiency and effectiveness to benefit your bottom line.
