WHO WE ARE

Axis Communications enables a smarter and safer world by creating network solutions that provide insights for improving security and new ways of doing business. As the industry leader in network video, Axis offers products and services for video surveillance and analytics, access control and audio systems.

CORNING

Corning Optical Communications delivers connectivity to every edge of the network, with optical fiber, cable, hardware that are future ready, flexible and quick to deploy. Our simplified network solution delivers power and bandwidth to the far reaches of your building or campus so that key devices like security cameras are up and running in no time. And as your network grows, this network can scale into a fully managed system ... without the costly rip-and-replace practices of the past.

WESCO® | ANIXTER

WESCO and Anixter offer complete security solutions, from cameras, readers, intercoms and entry products, to the infrastructure required to support it all. We can help you provide safe, secure facilities and leverage the Internet of Things to drive greater operational efficiency and business intelligence for your customers.
