

ANIXTER SOLUTIONS BRIEFING CENTERS: A GLOBAL NETWORK OF COMMUNICATIONS AND SECURITY EXPERTISE

Making Informed Decisions

Evaluating the latest wireless technologies. Assessing electronic access control and door-locking hardware in open-architecture environments. Demonstrating image quality over IP cameras. The central mission of the SOLUTIONS Briefing Centers is to turn the questions and challenges customers have into practical solutions that will meet their short- and long-term needs for cost-effective and risk-averse solutions.

The SOLUTIONS Briefing Centers significantly expand Anixter's technology demonstration and education program by bringing together Anixter's Technology Support Services, technical experts and strategic partners into one location to provide you with a local venue to see demonstrations of the latest technologies while discussing your needs and building solutions.

Anixter's technical experts and engineers at our regional SOLUTIONS Briefing Centers have diverse experience in a variety of technologies:

- Industrial communication and control (ICC)
- Building technologies
- Data centers
- Physical security
- Enterprise networks

Global Network. Local Support.

Supported by Anixter's Infrastructure Solutions LabSM, the SOLUTIONS Briefing Centers are part of a global technology network. Each center has a dedicated technical adviser who is responsible for operating the location. With products from Anixter's Technology Alliance PartnersSM, the centers maintain consistency across the globe to provide a unique technological experience:

- Immersive technical environment
- Technologies displayed as they would be in your own environment
- Interoperability demonstration
- End-to-end system evaluation
- Best practices and strategies education
- Technology debriefs on current and emerging technologies
- Standards updates
- Constantly updated products and technologies
- Touchscreen displays
- Raised floors for data centers

Backed by Innovation

Since 1957, research and education have been cornerstones of our company. Anixter continuously invests in research, testing and education while employing hundreds of experts worldwide focused on providing customers with the latest industry knowledge.

This knowledge is supported by Anixter's Infrastructure Solutions Lab—a world-class research and educational center located in Glenview, IL—that pushes the boundaries of technologies, products and solutions to address customers' toughest infrastructure challenges and meet their future application needs.

At The Lab and SOLUTIONS Briefing Centers, dedicated technical specialists stay current on the latest trends and developments by belonging to many standards organizations and staying current on the latest industry developments.
