

A Smarter Way to Work

Wesco Anixter offers innovative and customisable services that help you work smarter.

How are You Adapting to:

- Meet new onsite safety protocols?
- New technologies?
- Labour constraints?

We can help you adapt with a range of solutions that create a variable cost model to improve safety, labour utilisation and cash flow, resulting in a more resilient and scalable business.

Advisory Services

Advisory Services help our customers implement Lean practices, optimise their supply chains, improve safety and digitally transform their workplaces with the latest technologies and infrastructure solutions.

Our Advisory Services offer innovative solutions in areas such as:

- IoT consulting
- Engineering
- Technical design and lab services
- Safety services and training

Integrated Supply

Our Integrated Supply solutions leverage our extensive market sourcing expertise to achieve better controls, transparency and efficiencies in the supply chain. And our storeroom and warehouse programs meet the highest performance standards, helping to shape savings and process improvement by working hand in hand with our customers.

Our Integrated Supply solutions can help transform your supply chain through:

- Optimised inventory for improved working capital
- Significant waste reduction
- Digital integration for e-procurement and inventory management
- Overall cost-saving opportunities

Supply Chain Services

Supply Chain Services are designed to help our customers work smarter and more productively. We build tailored integrated supply programs that optimise operational efficiencies, provide visibility and enable scalability.

Our Supply Chain Services customers benefit from:

- Working capital improvements
- Reduction in scrap/obsolescence
- Cash-to-cash cycle improvements
- Sourcing improvements
- CAPEX/OPEX deferral

Project Deployment Services

Project Deployment Services scale our Installation Enhancement Services to save time, provide consistency and improve scalability across multifaceted deployments.

Project Deployment Services are designed for projects involving:

- Multiple product sets
- Multiple contractors, integrators and/or installers
- National and/or global rollouts
- Large inventory quantities and values
- Systems integrations

Installation Enhancement Services

Installation Enhancement Services involve adapting products and their packaging to speed and streamline deployment and reduce the total cost of installation.

Some popular examples of our Installation Enhancement Services designed for installers and contractors include:

- Asset tagging
- Camera configuration and IP addressing
- Insta-reel
- Parapull
- Kitting for any environment, including: data centres, commercial buildings, manufacturers and storm recovery for utilities
- Patchcord labelling and bundling
- Labelling
- Whole order delivery
- PPE kits

Save Time

Mitigate Risk

Your Success is the Focus of Our Services

Discover how we can help you **reduce costs, improve profitability, drive growth, meet safety goals and exceed deployment expectations** — for both planned and emergency projects.

When you partner with us, you can expect real benefits from our services. Typical results realised from our services projects include:

Supply Chain Services Increase Consistency, Improves Response Times and Saves \$1.5 Million Across Eight Locations.

Tailored Supply Chain Services for strategic sourcing, inventory ownership and management programs helped the service provider realise \$1.5 million in product, facilities and personnel costs, all while improving consistency and response times.

- Reduced inventory by 50 percent
- Transferred warehouse facilities and personnel to Wesco Anixter
- Removed \$250 million in capital expenses
- Saved \$850,000 in annual interest on materials

Project Deployment Services Improve Visibility, Speed Deployment and Save \$150,000 Across Six-City Project.

Our Project Deployment Services were able to consolidate and centralise inventory and hold it at Wesco Anixter locations close to the integrator's sites, reducing working capital, speeding deployment and saving the integrator \$150,000.

- Consolidated over 90 manufacturers to 12 and leveraged spend
- Online business solutions improved supply chain visibility
- Reduced inventory and working capital costs
- Mitigated freight costs and minimised deployment times

Installation Enhancement Services Reduce Installation Time by 90 Percent and Save Over \$10,000.

Installation Enhancement Services, including cutting to exact circuit length, colour feeders that eliminated faze tape, disposable pully lines with staggered lanyards, enhanced Paraspins with removable casters, and layered multiple circuits, helped the contractor streamline and speed the installation and save over \$10,000 in labour costs.

- 16 labour hours vs 160 labour hours
- Two-person crew over one day vs four-person crew over five days
- \$1,200 vs \$12,000 in labour
- Minimised nonproductive labour
