

Rail Infrastructure Solutions

Wesco Anixter understands the complexities involved in the deployment of multisite rail projects.

Key benefits include:

- Broad range of products (traction power, overhead catenary system cabling (messenger, contact wires), grounding wires, signal cables, coaxial cable, fibre and surge protection)
- Unparalleled supply chain expertise (materials logistics, kitting and just-in-time deployment to deliver products when, where and how they're needed)

Wesco Anixter provides assistance solutions that improves project safety and velocity so projects get completed on time and under budget.
