

PRODUCT SOLUTIONS BRIEF  
**AXIS COMMUNICATIONS**

**DATA CENTRE RISK MANAGEMENT**

Through our strong global partnerships and alliances with manufacturers such as Axis, we are able to present you with the following offering to meet your specific data centre requirements.

**Axis Data Centre Perimeter Defence Network Cameras**

The first data centre physical security layer—perimeter defence—controls authorised and unauthorised access to the data centre’s property. Axis has a complete line of PTZ dome, fixed dome and fixed thermal network cameras to address your data centre’s outdoor security needs.

AXIS Q35 Series fixed domes are ideal for perimeter security applications.

**CHALLENGE SOLVERS**

- Challenging landscape and lighting conditions
  - Thermal cameras are excellent for detecting people, objects and incidents from complete darkness to sunlit and other challenging conditions.
  - Axis cameras with Lightfinder technology can maintain image colour quality in dark conditions.
- Controlling authorised and unauthorised access
  - Advanced motion detection can integrate with the camera’s internal event manager, enabling various system notifications and providing a proactive security response.
  - Audio detection alarms can compliment video motion detection by reacting to events that are too dark for the video motion detection functionality to work properly and detect activity in areas outside the camera’s view.
- Unattended perimeter weak points
  - Axis Cross Line Detection spots moving objects that cross a virtual line, making it possible to automatically trigger an event.
  - Panoramic and high-resolution cameras capture activity in large areas.

**THE ANIXTER APPROACH**

Six Layers of Physical Security – The Axis solutions on this brief focus on Layer 1:

- **Perimeter defence**  
 Establish a physical boundary at the property edge to deter external threats.

**THE AXIS SOLUTION**

PTZ DOME NETWORK CAMERAS	NETWORK FIXED DOME CAMERAS	NETWORK FIXED THERMAL
AXIS Q6045-E Mk II	AXIS Q3505-VE	AXIS Q1932-E series cameras

**WHAT WE HEAR**

Challenges from various data centre stakeholders:

**PROTECTING** the company’s image

**ACHIEVING** regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

**BALANCING** investment in both physical and logical security

**STAYING** one step ahead of adversaries

**EXECUTING** policies and procedures specific to the data centre

**Infrastructure as a Platform**  
 by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- PoE midspan and splitters
- Media converters
- Video surveillance control board

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

## PERIMETER DEFENCE NETWORK CAMERA FEATURES

### ✓ PTZ DOME NETWORK CAMERAS

- HDTV 1080p, 32x optical zoom
- (IK10) vandal-resistant
- Arctic temperature control
- Automatic defog functionality

### ✓ NETWORK FIXED DOME CAMERAS

- IK10+ outdoor models
- Forensic capture
- 1080p at up to 60 fps
- Lightfinder technology

### ✓ NETWORK FIXED THERMAL CAMERAS

- IK10+ outdoor models
- Intelligent video applications
  - Video motion detection
  - Cross line detection
  - Shock detection
  - Audio detection
- VGA thermal imaging
- Thermal resolution of 640x480

Steady, high-quality video in tough environments

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)  
**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

For over 30 years, Anixter has been the leading global, value-added distributor of physical layer communication infrastructure solutions for office, building and campus environments. As experts in large-scale project execution, we are a trusted supplier to leading communication integrator companies and have worked with many Fortune 500 companies.
