

PRODUCT SOLUTIONS BRIEF  
**AXIS COMMUNICATIONS**

**DATA CENTRE RISK MANAGEMENT**

Through our strong global partnerships and alliances with manufacturers such as Axis, we are able to present you with the following offering to meet your specific data centre requirements.

**Axis Data Centre Clear Zone Network Cameras**

The second layer of data centre physical security—the clear zone—is needed to protect critical electrical and mechanical areas, such as the primary power plant, power wires running into the facility and back-up areas that house generators and fuel tanks.

Axis has a complete line of high-resolution network cameras with a wide field of view designed for outdoor use in all lighting conditions, allowing you to capture details without missing the big picture.

AXIS P14 Series is ideal for outdoor, 24/7 video surveillance.

**CHALLENGE SOLVERS**

- Protecting mission-critical infrastructure
  - Axis Cross Line Detection spots moving objects that cross a virtual line, making it possible to automatically trigger an event.
  - Axis network cameras bring the advantages of HD, megapixel and network technologies to your data centre surveillance application.
- Wide area surveillance
  - Panoramic and high-resolution cameras capture activity in large areas.
  - P-Iris provides an automatic, precise iris control that improves contrast, clarity, resolution and depth of field.
- Challenging lighting conditions
  - Axis Lightfinder technology-enabled cameras can maintain image colour quality in dark conditions.
  - Wide dynamic range (WDR) handles a wide range of lighting conditions in a scene to enable objects in both bright and dark areas to be visible.

**THE ANIXTER APPROACH**

Six Layers of Physical Security – The Axis solutions on this brief focus on Layer 2:

- **Clear zone**  
 Create a buffer zone between the perimeter and the facility to better detect physical intrusion.

**THE AXIS SOLUTION**

DOME NETWORK CAMERAS	INTEGRATED NETWORK CAMERAS	BULLET-STYLE NETWORK CAMERAS
AXIS Q6054-E Mk II AXIS P3367-VE	AXIS Q6000-E Mk II and Q60-E Mk II series cameras	AXIS P14-LE Mk II series cameras

**WHAT WE HEAR**

Challenges from various data centre stakeholders:

**PROTECTING** the company's image

**ACHIEVING** regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

**BALANCING** investment in both physical and logical security

**STAYING** one step ahead of adversaries

**EXECUTING** policies and procedures specific to the data centre

**Infrastructure as a Platform**  
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- PoE midspan and splitters
- Media converters
- Video surveillance control board

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

### CLEAR ZONE NETWORK CAMERA FEATURES

#### ✓ PTZ DOME NETWORK CAMERAS

- HDTV 720p, 30x optical zoom
- IK10 vandal-resistant
- Arctic Temperature Control
- Lightfinder technology
- Axis' Zipstream technology
- Electronic Image Stabilisation – useful for windy conditions

#### ✓ INTEGRATED NETWORK CAMERAS

- Four 2 MP sensors model available
- Full 360° overview
- One-click PTZ control
- Auto-tracking
- Axis' Zipstream technology

#### ✓ FIXED DOME NETWORK CAMERAS

- HDTV 1080p or 5 MP
- IK10 vandal-resistant
- P-Iris control for optimal depth of field
- Remote focus and zoom

#### ✓ BULLET-STYLE NETWORK CAMERAS

- HDTV 1080p, 5 MP or 4K models available
- Varifocal lens, remote focus/zoom
- Forensic capture and dynamic contrast models available
- Optimised IR technology
- Lightfinder technology models available
- Axis' Zipstream technology available

AXIS Q6000-E provides a full 360° overview with one-click PTZ control.

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)  
**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
