

Through our strong global partnerships and alliances with manufacturers such as Axis, we are able to present you with the following offering to meet your specific data centre requirements.

### Axis Data Centre Facility Façade/Reception Area Network Cameras

The third layer of data centre physical security helps to manage data centre visitors. Visitor control starts at the reception area and sets the tone for the data centre. Axis has a complete line of network cameras designed to provide high-resolution images that clearly identify who is coming into a facility.

The outdoor-ready AXIS P3384-VE supports WDR, which is ideal for areas with variations in light.

### CHALLENGE SOLVERS

- Improve visitor and employee identification
  - Axis WDR – Forensic Capture optimises video by enabling an extremely high level of detail to be visible in both dark and bright areas. This allows data centre personnel to clearly define people of interest in challenging low-light and backlight conditions.
  - Megapixel network cameras cover a larger scene than nonmegapixel cameras without a loss in resolution, which improves coverage of a larger area.
- Mitigation of tailgating and unauthorised access
  - Network video devices can be fitted with a people-counting module that records the number of people passing through each door directly into the data centre.
- Protection and alerting capabilities at secondary entry points
  - Axis Cross Line Detection spots objects such as people and vehicles that cross a defined virtual line, making it possible to alert security personnel.
- Monitoring security personnel
  - Covert and discreet HDTV surveillance reduces liability and safeguards employees.

### THE ANIXTER APPROACH

Six Layers of Physical Security – The Axis solutions on this brief focus on Layer 3:

- **Reception area**  
Control visitors to the facility and validate authorised access to the data centre.

### WHAT WE HEAR

Challenges from various data centre stakeholders:

**PROTECTING** the company's image

**ACHIEVING** regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

**BALANCING** investment in both physical and logical security

**STAYING** one step ahead of adversaries with technology

**EXECUTING** policies and procedures specific to the data centre

**Infrastructure as a Platform**  
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- PoE midspan and splitters
- Media converters
- Video surveillance control board

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

## FACILITY FAÇADE/RECEPTION AREA CAMERA FEATURES

### ✓ MINI DOME NETWORK CAMERAS

- 360°/180° panoramic views in up to 5 MP resolution
- (IK10) vandal-resistant
- Digital PTZ and multi-view streaming with dewarped views
- Enhanced capacity for video analytics

### ✓ PTZ NETWORK CAMERAS

- HDTV 1080p, 18x optical zoom
- Direct drive (no belts or gears)
- Two-way audio and input/output ports

### ✓ FIXED DOME NETWORK CAMERAS

- HDTV 720p or 1 MP
- (IK10) vandal-resistant
- P-Iris control for optimal depth of field
- Lightfinder technology
- Remote focus and zoom

AXIS P5415-E offers HDTV 1080p, allowing security personnel to quickly identify people of interest.

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)  
**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
