

PRODUCT SOLUTIONS BRIEF
AXIS COMMUNICATIONS

DATA CENTRE RISK MANAGEMENT

Through our strong global partnerships and alliances with manufacturers such as Axis, we are able to present you with the following offering to meet your specific data centre requirements.

Axis Data Centre Facility Façade/Reception Area Network Cameras

The third layer of data centre physical security helps to manage data centre visitors. Visitor control starts at the reception area and sets the tone for the data centre. Axis has a complete line of network cameras designed to provide high-resolution images that clearly identify who is coming into a facility.

CHALLENGE SOLVERS

- Improve visitor and employee identification
 - Axis WDR – Forensic Capture optimises video by enabling an extremely high level of detail to be visible in both dark and bright areas. This allows data centre personnel to clearly define people of interest in challenging low-light and backlight conditions.
 - Megapixel network cameras cover a larger scene than nonmegapixel cameras without a loss in resolution, which improves coverage of a larger area.
- Mitigation of tailgating and unauthorised access
 - Network video devices can be fitted with a people-counting module that records the number of people passing through each door directly into the data centre.
- Protection and alerting capabilities at secondary entry points
 - Axis Cross Line Detection spots objects such as people and vehicles that cross a defined virtual line, making it possible to alert security personnel.
- Monitoring security personnel
 - Covert and discreet HDTV surveillance reduces liability and safeguards employees.

THE ANIXTER APPROACH

Six Layers of Physical Security – The Axis solutions on this brief focus on Layer 3:

- **Reception area**
 Control visitors to the facility and validate authorised access to the data centre.

THE AXIS SOLUTION

<p>FIXED MINI DOME NETWORK CAMERAS</p> <p>AXIS M3027-PVE</p>	<p>PTZ CAMERAS</p> <p>AXIS P5415-E</p>	<p>FIXED DOME NETWORK CAMERAS</p> <p>AXIS P3384-VE</p>
---	---	---

anixter.com/shopaxis/emea

The outdoor-ready AXIS P3384-VE supports WDR, which is ideal for areas with variations in light.

WHAT WE HEAR

Challenges from various data centre stakeholders:

PROTECTING the company's image

ACHIEVING regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

BALANCING investment in both physical and logical security

STAYING one step ahead of adversaries with technology

EXECUTING policies and procedures specific to the data centre

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- PoE midspan and splitters
- Media converters
- Video surveillance control board

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

FACILITY FAÇADE/RECEPTION AREA CAMERA FEATURES

✓ MINI DOME NETWORK CAMERAS

- 360°/180° panoramic views in up to 5 MP resolution
- Enhance capacity for video analytics

✓ PTZ CAMERAS

- Direct drive (no gears or belts)
- Up to HDTV 1080p with 18x zoom

✓ FIXED DOME NETWORK CAMERAS

- Wide dynamic capture for difficult lighting
- P-Iris control to set the best iris position for optimal depth of field

AXIS P5415-E offers HDTV 1080p, allowing security personnel to quickly identify people of interest.
