

PRODUCT SOLUTIONS BRIEF
CANON

DATA CENTRE RISK MANAGEMENT

Layer 4: Hallways, Escorted Areas and Gray Space

Layer 5: Data Centre Room

Through our strong global partnerships and alliances with manufacturers such as Canon, we are able to present you with the following offering to meet your specific data centre requirements.

VB-H730F Network Camera

Canon's H730F fixed full-body camera delivers an ultra-wide 112° field of view and superior low-light performance. Protect and monitor your data centre's hallways and equipment rooms in full HD with superior image quality, utilising Canon DIGIC DV III image processor. Featuring a 3x optical and 4x digital zoom lens, the H730F allows for precise monitoring down to the individual equipment cabinet.

Keep every angle covered with Canon's H730F full HD ultra-wide angle full body camera.

CHALLENGE SOLVERS

- An ultra-wide 112° angle of view with 3x optical and 4x digital zoom lens combined with a removable IR Cut Filter allows you to see everything in any lighting condition.
- A choice of six different intelligent functions including moving object detection, abandoned object detection, removed object detection, camera tampering detection, passing detection and volume detection. Detected activity can be set to activate recording, uploading images to a server or sending an email notification.
- Canon network cameras are compatible with leading video management software. Compliance with the latest ONVIF v2.4 Profile S makes it convenient to create a solution with ONVIF-compliant video management software.

THE ANIXTER APPROACH

Six Layers of Physical Security

- **Perimeter defence**
Establish a physical boundary at the property edge to deter external threats.
- **Clear zone**
Create a buffer zone between the perimeter and the facility to better detect physical intrusion.

THE CANON SOLUTION

| HD FIXED FULL BODY CAMERA | FIXED FULL BODY CAMERA | HD MINI FIXED FULL BODY CAMERA |

WHAT WE HEAR

Challenges from various data centre stakeholders:

PROTECTING the company's image

ACHIEVING regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

BALANCING investment in both physical and logical security

STAYING one step ahead of adversaries with technology

EXECUTING policies and procedures specific to the data centre

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Mounting kits
- Media converters
- Power adapters
- Video management software

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

CANON H730F CAMERA FEATURES

✓ FULL CORRIDOR AND ROOM PROTECTION

- 112.6° wide angle lens
- 2.1 megapixel (native 1920x1080 full HD resolution)
- Two-way audio
- Digital pan, tilt and zoom (PTZ)

✓ OPTIMISED FOR INDOOR ENVIRONMENTS

- Various power options
- Multiple networking functions
- Exceptional low-light performance
- On-board video analytics

Multiple connectivity options including power, audio, memory card slot and external device I/O.
