

PRODUCT SOLUTIONS BRIEF
CANON

DATA CENTRE RISK MANAGEMENT

Layer 3: Facility Façade and Reception Area

Through our strong global partnerships and alliances with manufacturers such as Canon, we are able to present you with the following offering to meet your specific data centre requirements.

VB-S800D Minidome Network Camera

Canon's S800D is a fixed minidome HD network security camera that features a new ultra-compact lens technology. The S800D is built with a wide angle F/1.6 lens that offers a 95° angle of view in a compact form factor, making it ideal for data centre reception area security applications.

Smart, full HD fixed minidome camera in an ultra-compact body

CHALLENGE SOLVERS

- Auto Smart Shade Control (SSC) optimises exposure to improve highlights and correct dark areas in back-lit scenes or low light conditions which are often found in the reception area.
- The ultra-compact VB-S800D Fixed Minidome network security camera features full HD (1920 x 1080) resolution at 30fps, which makes it ideal for applications that require facial recognition.
- Integrates seamlessly thanks to the network cameras SDK and HTTP protocol specification. Compliance with the latest ONVIF V2.2 and Profile S makes it convenient to create a solution with ONVIF-compliant video management software.

THE ANIXTER APPROACH

Six Layers of Physical Security

- **Reception area**
Control visitors to the facility and validate authorised access to the data centre.

WHAT WE HEAR

Challenges from various data centre stakeholders:

PROTECTING the company's image

ACHIEVING regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

BALANCING investment in both physical and logical security

STAYING one step ahead of adversaries with technology

EXECUTING policies and procedures specific to the data centre

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data centre environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Mounting kits
- Category 6 copper cabling
- Access control products
- Video management software

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

CANON S800D CAMERA FEATURES

✓ FULL RECEPTION AREA PROTECTION

- Wide angle F/1.6 Canon lens
- Full HD at 30 fps
- Digital pan, tilt and zoom (PTZ)
- Camera tampering detection

✓ OPTIMISED FOR INDOOR ENVIRONMENTS

- Compact size: just 120 mm in diameter
- Auto Smart Shade Control
- CMOS sensor delivers high performance in low light
- Intelligent in-built analytics

Choice of PT Minidome or Fixed Minidome designs
