

PRODUCT SOLUTIONS BRIEF  
**COMMSCOPE**

**DATA CENTRE NETWORK MIGRATION**

Through our strong global partnerships and alliances with manufacturers such as CommScope, we are able to present you with the following offering to meet your specific data centre requirements.

**InstaPATCH® 360**

CommScope's InstaPATCH 360 is a module and trunk-based fibre connectivity solution that provides greater capacity in a smaller, more compact footprint. This scalable, preterminated fibre solution streamlines the installation process with a snap-together design that makes it easier and faster to deploy or upgrade technology at any time.

InstaPATCH 360 has been terminated and tested in the factory, which means operators can be confident this high-performance solution will work right out of the box.

Easy reconfiguration for moves, adds and changes

**CHALLENGE SOLVERS**

- iPatch® ready means it's upgradeable to intelligent infrastructure management after the initial installation.
- Method B polarity greatly simplifies upgrades from serial to parallel without special components.
- Multiple array cord and module options are available to address growing number of 10/40/100G migration options.
- It uses factory-terminated and tested cable and apparatus for instant field connections with guaranteed quality and performance.

**THE ANIXTER APPROACH**

- **Network flexibility**  
Apply designs to accommodate your performance requirements and highly scalable network architecture demands.
- **Density demands**  
Deploy scalable designs that accommodate for uncertain density requirements.

**THE COMMSCOPE SOLUTION**

CONFIGURATION OPTIONS	MODULE TYPE	CABLE OPTIONS

**COMMSCOPE®**

**WHAT WE HEAR**

Challenges from various data centre stakeholders:

**AMORTISATION** of cabling investment

Infrastructure **COMPLEXITY**

Restrictions of **LEGACY SYSTEMS**

**SPEED** of deployment

Pace of **INNOVATION**, adoption

**Infrastructure as a Platform**  
by Anixter

Infrastructure as a Platform by Anixter provides an investigative methodology that uncovers gaps in your data centre network migration strategy and helps you reclaim stranded capacity.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Configure shelf based on capacity
- Select appropriate modules
- Choose cable assemblies
- Determine amount of patch cords

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- G2 panels and shelves
- G2 modules and adapter panels
- Additional housing options
- imVision®

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

### NETWORK FLEXIBILITY

- Preterminated solution slashes labour for a lower total installed system cost.
- It supports easy reconfiguration for moves, adds and changes.
- It is designed for administrative convenience – guaranteed transmit-to-receive connectivity.
- It is directly compatible with the SYSTIMAX® G2 Modular Cassette System.

### DENSITY DEMANDS

- Increased density reduces space by 50 percent.
- Excellent cable management and rear access minimises bulk, complexity and potential restrictions to airflow.
- Single-module design supports deployment in standard, high and ultra-high density configurations.
- It is backed by best-in-industry SYSTIMAX® warranty.

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)

**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
