

PRODUCT SOLUTIONS BRIEF
PANDUIT

DATA CENTRE NETWORK MIGRATION

Through our strong global partnerships and alliances with manufacturers such as Panduit, we are able to present you with the following offering to meet your specific data centre requirements.

PanMPO™ Fibre Cable Assemblies

Panduit's PanMPO connector is the only MPO fibre optic connector available that can change polarity and gender in a matter of seconds, making your 10G to 40G Ethernet migration quick, easy and cost-effective. When it's time to migrate to 40G, you can switch the connectors to maintain standards compliance without replacing your fibre infrastructure.

PanMPO™ gives the ability to change the polarity and gender of the connector in the field.

CHALLENGE SOLVERS

- Converts easily between male and female gender and between key-up and key-down polarity for a standards-compliant 10G or 40G/100G Ethernet installation
- Changes to the connector are made in the field, as needed
- Makes sure you always have the right cable assembly on hand

THE ANIXTER APPROACH

High-Performance Structured Cabling

- **Network flexibility**
Apply designs to accommodate your performance requirements and highly scalable network architecture demands.
- **Density demands**
Deploy scalable designs that accommodate for uncertain density requirements.

THE PANDUIT SOLUTION

ASSEMBLY TYPE	FIRE RATING	CABLE OPTIONS
Trunk Harness Interconnect	Riser Plenum	Fibre type Connector type Length

WHAT WE HEAR

Challenges from various data centre stakeholders:

AMORTISATION of cabling investment

Infrastructure **COMPLEXITY**

Restrictions of **LEGACY SYSTEMS**

SPEED of deployment

Pace of **INNOVATION**, adoption

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter offers a standards-based, physical layer approach that provides a foundation to meet the high-performance computing demands of your data centre.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Interconnect assemblies
- Trunk assemblies
- Harness assemblies
- Reference cable assemblies

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- HD Flex™ fibre cabling system
- Net-Access™ cabinets
- Intelligent hardware and software
- Intelligent PDUs

DEPLOY

Controlled, repeatable solutions delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

PANMPO FIBRE CABLE ASSEMBLIES FEATURES

✓ NETWORK FLEXIBILITY

- One cable, six different configurations
- Used with any MPO-based infrastructure
- Standards compliant

✓ DENSITY DEMANDS

- Polarity and gender swappable
- Available on trunks, harnesses, interconnects and reference cords
- Replaces cassettes with MPO FAPs while keeping same fibre trunk

Stock one type of cable assembly instead of six – the only knowledge needed is length.

About Anixter: [anixter.com/aboutus](https://www.anixter.com/aboutus)

Legal Statement: [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
