

PRODUCT SOLUTIONS BRIEF
PANDUIT

MICRO DATA CENTER NETWORK MIGRATION

Through our strong global partnerships and alliances with manufacturers such as Panduit, we are able to present you with the following offering to meet your specific data center requirements.

PatchRunner™ 2 Vertical Cable Managers

The vertical cable manager consists of a metal backbone with cable management fingers that align with EIA rack spacing. The fingers provide integral bend radius control throughout the entire length. The backbone has pass through holes for front-to-back cabling, with the option to blank off with a plug. The manager accepts a metal, hinged, push-to-close door that can open to the right or left. The door support brackets are integrated into the manager with no assembly required. The manager accepts plastic slack management spools that can be repositioned as required. The vertical panel manages all the cable on the rack without the aid of horizontal cable managers.

PatchRunner™ 2 Vertical Cable Managers

CHALLENGE SOLVERS

- “Push-to-close” door design allows for easy operation.
- Dual hinged doors are included. Doors ship with managers, simplifying ordering process with less packaging waste.
- Integrated door brackets means no brackets are needed, resulting in faster installation and reduced labour costs.
- Manager and door color options include black and white.
- High-density with increased cable capacity provides up to 17% more usable capacity over existing PRV vertical managers.
- Curved fingers support cables as they transition to vertical pathways, eliminating the need for horizontal managers.
- Individual fingers align with rack spaces to simplify cable routing changes.
- Integral bend radius control ensures network performance and system reliability.

THE ANIXTER APPROACH

- **Network flexibility**
Apply designs to accommodate your performance requirements and highly scalable network architecture demands.
- **Density demands**
Deploy scalable designs that accommodate for uncertain density requirements.

THE PANDUIT SOLUTION

DUAL-HINGED DOORS	INTEGRATED DOOR BRACKETS	INCREASED CABLE CAPACITY
Doors ship with managers, simplifying ordering process with less packaging waste	No brackets to install Faster installation while reducing labor costs	High density with up to 17% more usable capacity over existing PRV vertical managers

WHAT WE HEAR

Challenges from various data center stakeholders:

AMORTIZATION of cabling investment

Infrastructure **COMPLEXITY**

Restrictions of **LEGACY SYSTEMS**

SPEED of deployment

Pace of **INNOVATION**, adoption

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter offers a standards-based, physical layer approach that provides a foundation to meet the high-performance computing demands of your data center.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Dual-sided 6-in., 12-in.
- Single-sided 6-in., 12-in.
- 2,4 posts
- Colour options: black and white
- Optional snap-on vertical retainers

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Optional parts for management include spools, slack managers, end panels and blanking plugs
- PRSP7, PRSP5, PR2VEP*^, WR5E-X, R2PPR2VWF^, R4PPR2VWF^, PR2VBPK

DEPLOY

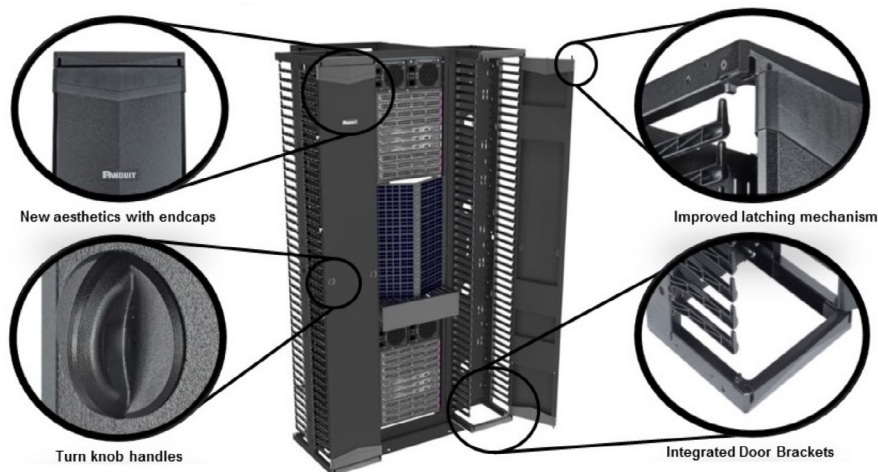

Controlled, repeatable solutions delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

PATCHRUNNER™ 2 VERTICAL CABLE MANAGERS FEATURES

✓ HIGH-DENSITY NETWORKING

- Designed to manage high-density networking equipment in up to half the area required by traditional cable management systems.
- Molded cable management fingers, with integral bend radius control, combine with Panduit angled patch panels to eliminate the need for horizontal cable managers

PatchRunner 2 highlights

About Anixter: [anixter.com/aboutus](https://www.anixter.com/aboutus)
Legal Statement: [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
