

PRODUCT SOLUTIONS BRIEF
ALLIED TELESIS

COMMERCIAL BUILDING NETWORK PERFORMANCE

Through our strong global partnerships and alliances with manufacturers such as Allied Telesis, we are able to present you with the following offering to meet your specific commercial building requirements.

AT-IX5-28GPX High Availability Video Surveillance Switch

The Allied Telesis AT-IX5-28GPX provides a high performing and scalable solution for today's networks. With 24 PoE+ enabled 10/100/1000Mbps ports, two 1/10 Gigabit uplinks, plus the ability to stack up to four units, the AT-IX5-28GPX is the ideal solution for video surveillance applications where high performance and resilient PoE power are critical.

The Allied Telesis IX5-28GPX offers an impressive set of features in a high-value package, making it ideal for IP video surveillance environments.

CHALLENGE SOLVERS

- High availability
 - Dual hot-swappable load-sharing power supplies and support for operation up to 60°C facilitate maximum network uptime.
 - Ethernet Protection Switched Rings (EPSR) provide a high-speed ring topology with failover in as little as 50ms, supporting large IP surveillance environments with an 'always-on' solution.
- Simplified network management
 - The Allied Telesis Management Framework (AMF) automates many everyday tasks, including configuration management, saving you valuable time and resources.
 - Plug-and-play simplicity and network node recovery are fully zero-touch.
- Secure
 - Unprecedented control over user access is provided with Network Access Control (NAC), to mitigate threats to network infrastructure.
 - Powerful control over network traffic types, secure management options, and other multilayered security features are built right into the switch.

THE ANIXTER APPROACH

- **Network Flexibility**
 Apply open architecture designs to accommodate your performance requirements for a highly scalable network.
- **Wireless Mobility**
 Determine your migration path for Wi-Fi and in-building cellular connectivity to support a multi-screen environment.
- **Application Support**
 Deploy scalable designs that can support multiple and varied applications over a high-performance, IP-based structured cabling system.

WHAT WE HEAR

Challenges from the various commercial building stakeholders are:

Keeping up with **EVOLVING TECHNOLOGIES**

AMORTISATION of cabling systems

Supporting multiple **APPLICATIONS**

Reducing network **DOWNTIME**

Coping with **INCREASING BANDWIDTH**

THE ALLIED TELESIS SOLUTION

SWITCH OPTIONS	SOFTWARE LICENSE	ACCESSORIES

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter offers a standards-based, physical layer approach that provides a foundation to meet the high-performance demands of your commercial building.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Power cord type
- Power supply quantity
- SFP and SFP+ modules
- Software licenses

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Direct attached cabling
- Copper and fibre cabling
- Racks and cabinets
- Uninterruptible power supplies

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

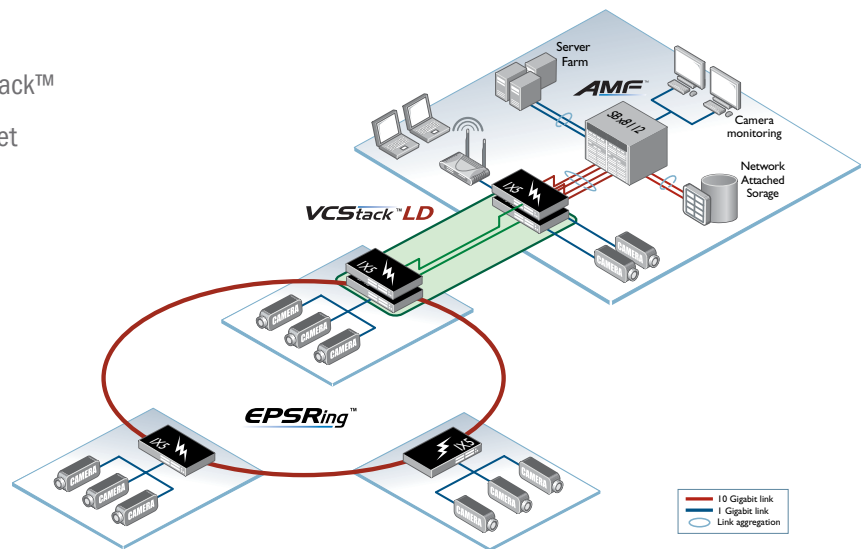

ALLIED TELESIS AT-IX5-28GPX SERIES SWITCH FEATURES

✓ KEEP UP WITH EVOLVING TECHNOLOGIES

- Stackable – up to four units of IX5 in a VCStack™
- Comes with a comprehensive IPv6 feature set
- Up to 30 watts available per port to power IP cameras.

✓ REDUCE NETWORK DOWNTIME

- Dual hot-swappable load-sharing power supplies
- Ability to operate at up to 60°C
- Complete network can be managed as a single virtual device

Allied Telesis x510 Series switches are ideal for distribution solutions, where resiliency and flexibility are required.

About Anixter: anixter.com/aboutus
Legal Statement: anixter.com/legalstatement

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
