

PRODUCT SOLUTIONS BRIEF
GEIST

COMMERCIAL BUILDING SPACE UTILISATION

Through our strong global partnerships and alliances with manufacturers such as Geist, we are able to present you with the following offering to meet your specific commercial building requirements.

Upgradeable PDU

Geist's Upgradeable power strips give IT managers the flexibility to install the intelligence they require today with the option to upgrade technology as needs evolve. From basic power to sophisticated power monitoring plus remote sensing, the Geist Upgradeable product line adapts to your business well into the future.

There is a clear route to upgraded functionality for Geist PDUs. However, it is not necessary to start at the most basic level. Simply choose the functionality that suits your requirements today, and even if that is currently the most sophisticated level, Geist's future-solutions approach will allow you to upgrade at a later date.

Hot-swappable intelligence and available U-Lock receptacles help to ensure maximum uptime.

CHALLENGE SOLVERS

- Upgradeable monitoring: install the technology you need today with the ability to upgrade as your needs evolve.
- Hot-swappable units: add, remove or switch interchangeable monitoring devices (IMD) without interrupting power to critical servers.
- High-temperature grade: 60°C working ambient variants for high temperature environments.
- Available with or without U-Lock receptacles: the patented U-Lock technology will naturally capture and securely lock cords in place. Each receptacle is colour injected directly to ensure load balancing is easily achieved.

THE ANIXTER APPROACH

- **Scalable growth**
 Determine the right choice to support the capacity increases of multi-device and BYOD environments.

THE GEIST SOLUTION

FORM FACTOR	IMD TYPE	MONITORING OPTIONS
Vertical Horizontal	Basic Power monitoring Power monitoring and remote sensor	Racknet software Environet software Sensors Inline monitors

WHAT WE HEAR

Challenges from the various commercial building stakeholders are:

 **ADAPTING** to a changing workforce

 Growing **COST** of real estate

 Rising **ENERGY** costs

 Offering **FUNCTIONAL MEETING** environments

 Meeting staff **COMFORT REQUIREMENTS**

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to optimise real estate effectiveness in your commercial building.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Input voltage and current
- Input plug type
- Outlet quantity and type
- Mounting style

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Environmental monitors
- Plug-n-Play sensors
- Racknet
- Environet Facility

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

GEIST UPGRADEABLE PDU FEATURES

PREVENT AND MITIGATE OUTAGES

- High-temperature grade 60°C
- With or without U-Lock receptacles
- Fault-tolerant daisy chaining
- Red LED rotatable display

PROVIDE IT FLEXIBILITY

- Hot-swappable IMD provides an upgrade path
- Over 100 product configuration options
- Vertical and horizontal form factors
- Low-profile breakers for improved airflow management

Basic, power monitoring, or power monitoring with remote sensor IMDs provide a clear upgrade path depending on current requirements.
