

PRODUCT SOLUTIONS BRIEF  
**QUANTUM**

**COMMERCIAL BUILDING NETWORK PERFORMANCE**

Through our strong global partnerships and alliances with manufacturers such as Quantum, we are able to present you with the following offering to meet your specific commercial building requirements.

**StorNext® 5 Scale-Out Storage**

Quantum’s StorNext is high-performance shared storage designed to accelerate complex information workflows. It includes Xcellis workflow storage, extended online storage and tape archives—all powered by StorNext 5 data management, the industry’s fastest streaming file system and policy-driven tiering software.

**CHALLENGE SOLVERS**

- This system delivers dramatic new levels of performance, scalability and flexibility for a new generation of the industry’s leading scale-out shared storage file system, tiered storage and archive.
- StorNext is a complete end-to-end solution that combines file management technology with easy-to-deploy appliances to support the world’s most complex and demanding digital media workflows.
- StorNext retains data cost-effectively, supports complex video management systems and analytic applications and ingests video from four times as many cameras per server to deliver time-to-decision results—allowing for proactive protection and crime prevention.
- StorNext 5 intelligent software automatically and transparently moves data to the most appropriate tier of storage at the right time, providing a powerful combination of high performance and low total cost of ownership.

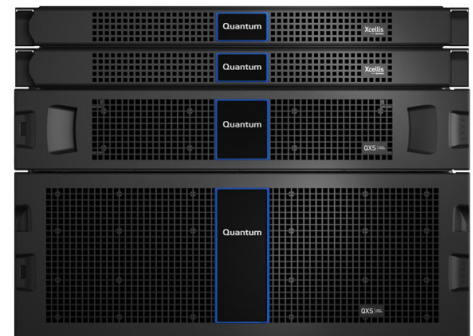

**THE ANIXTER APPROACH**

- **Network Flexibility**  
Apply open architecture designs to accommodate your performance requirements for a highly scalable network.
- **Application Support**  
Deploy scalable designs that can support multiple and varied applications over a high-performance, IP-based structured cabling system.

**THE QUANTUM SOLUTION**

SOFTWARE	STORAGE	ARCHIVING SYSTEM
Xcellis StorNext Appliances	QXS models Hybrid Flash Tiering	Artico™ NAS Lattus™ Object Scalar® LTFS Q-Cloud Archive

StorNext powers high-performance shared storage for collaborative workflows.

**WHAT WE HEAR**

Challenges from the various commercial building stakeholders are:

Keeping up with **EVOLVING TECHNOLOGIES**

**AMORTISATION** of cabling systems

Supporting multiple **APPLICATIONS**

Reducing network **DOWNTIME**

Coping with **INCREASING BANDWIDTH**

**Infrastructure as a Platform**  
by Anixter

Infrastructure as a Platform by Anixter offers a standards-based, physical layer approach that provides a foundation to meet the high-performance demands of your commercial building.

### CONFIGURE

We help you discover and map your specific needs to the best solution.

- Archiving system
- Data protection
- Cabinet and racks
- Data storage

### BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Management software
- IP cameras
- Network switches
- Structured cabling

### DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

### QUANTUM STORNEXT FEATURES

#### ✓ KEEP UP WITH EVOLVING TECHNOLOGIES

- Supports billions of files to keep up with your data growth
- Highly adaptable to increasing amounts video data
- Enables transparent access to files regardless of storage platform

#### ✓ SUPPORT MULTIPLE APPLICATIONS

- Storage infrastructure handles volume of data with ease
- Delivers streaming performance and real-time access to data, regardless of platform
- Helps to speed up workflows and increase the number of projects that can be managed

Building blocks of the StorNext architecture

**About Anixter:** [anixter.com/aboutus](http://anixter.com/aboutus)  
**Legal Statement:** [anixter.com/legalstatement](http://anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
