

PRODUCT SOLUTIONS BRIEF
APC BY SCHNEIDER ELECTRIC

HEALTHCARE FACILITY IoT ENABLEMENT

Through our strong global partnerships and alliances with manufacturers such as APC by Schneider Electric, we are able to present you with the following offering to meet your specific healthcare requirements, including enabling the Internet of Medical Things (IoMT).

InfraStruXure® HD-Ready Architecture

APC by Schneider Electric's InfraStruXure HD-Ready Architecture solution enables the benefits of a high-density environment at a lower relative cost than other solutions and offers greater operational and energy efficiency. Implementing a right-sized IT solution for your healthcare facility has never been simpler. The architecture puts hospitals on the fast track to optimal efficiency, making the best use of available space while allowing for future growth.

InfraStruXure HD-ready architecture puts your hospital on the fast track to optimal efficiency, making the best use of your available space and still allowing for future growth.

CHALLENGE SOLVERS

- Modular, open-architecture design increases adaptability and makes it configurable to any IT environment, scalable runtime allows for additional run time to be quickly added as needed, and standardized components reduce risk of failure, minimize human error and lower the mean time to repair.
- InfraStruXure's innovative design and pre-engineered system allows for fast, easy installation by almost anybody.
- The architecture enables accurate cost analysis of energy use on a kW/h basis and provides support for multiple types of IT assets and hardware platforms.
- The system helps to make EMR data readily available whenever required by healthcare professionals.

THE ANIXTER APPROACH

- **Environmental Monitoring**
Use occupancy, intelligent lighting, power and temperature sensor technology to achieve optimal comfort and energy efficiency.
- **Security Integration**
Create interoperability between video surveillance, access control and intrusion detection systems.
- **Network Connectivity**
Provide a standards-based IP platform that can run multiple applications, and be remotely managed and measured.

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a comprehensive approach to maximizing the potential of an automated healthcare facility, which starts at the physical layers.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Power
- Cooling
- Monitoring solutions
- Racks and enclosures

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Cabinet level locking
- Fiber and copper cabling
- Intelligent lighting
- Fire suppression

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

APC INFRASTRUXURE FEATURES

✓ MEETS ENERGY EFFICIENCY GOALS

- Enhanced overall efficiency, reduced power consumption and optimal availability
- InRow cooling with variable-speed fans closely match IT hardware performance to their cooling needs
- Centralized monitoring software aggregates all power, cooling and security information into one console
- Views, configures and controls multiple devices with one console

✓ PREVENTS ACCIDENTAL OUTAGES

- Metered rack PDUs provide active monitoring and alarms to warn of potential circuit overloads.
- Built-in N+1 redundancy for higher availability
- The Symmetra UPS provides modular, fault-tolerant power protection scalable, physical infrastructure that is always ready to handle any IT load.

Implementing a right-sized IT solution for your healthcare facility has never been simpler.
