

PRODUCT SOLUTIONS BRIEF
AXIS COMMUNICATIONS

HEALTHCARE FACILITY RISK MANAGEMENT

Through our strong global partnerships and alliances with manufacturers such as Axis Communications, we are able to present you with the following offering to meet your specific healthcare facility requirements.

Axis A8105-E Network Video Door Station

The Axis A8105-E Network Video Door Station combines communication, video surveillance and remote access into one single device, giving you complete audio/visual entry control over who can enter protected and secure areas of your healthcare facility and when. Axis' network door stations can be installed on a wall or recessed into the wall, and they integrate easily with existing IP networks, network cameras and IP phones or laptops for communication.

Axis A8105-E Network Video Door Station combines a security camera, two-way communication device and remote access door opener into one single device.

CHALLENGE SOLVERS

- Reliable indoor or outdoor audio/visual identification of individuals, even in extreme conditions or poor lighting
- Clear, two-way communication
- Remote entry control, selecting who can enter protected and secure areas and when
- Record hazardous events and alert help in case of an emergency, with audio and video analytics
- Zipstream technology for reduced bandwidth and storage needs

THE ANIXTER APPROACH

- **Property Perimeter**
Determine vulnerability areas around the property edge to deter external threats.
- **Reception and Registration Area**
Control the flow of visitors and patients to the facility and validate various levels of staff authorisation.
- **Specialty Units**
Protect patients and comply with privacy regulations with attention to complex specialty units.
- **Emergency Room**
Improve staff safety and care through effective management of high-stress and high-traffic emergency settings.
- **Pharmaceutical Assets**
Achieve regulatory compliance and loss prevention by monitoring access and intrusion to pharmaceutical zones.
- **Biomedical and Diagnostics**
Protect valuable equipment and potentially harmful materials in biomedical and diagnostic areas.

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Creating **SAFE** environments for patients and staff

Preventing **THEFT** of medicine and radiological materials

Achieving **REGULATORY COMPLIANCE**

Preventing **CYBER THREATS** to patient records

Limiting physical building and network **ACCESSIBILITY**

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploy physical security infrastructure into your healthcare environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Mounts
- Power over Ethernet
- Network switches
- Security relay

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- Sound intelligence
- Facial recognition
- Security as a service

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

AXIS A8105-E NETWORK VIDEO DOOR STATION FEATURES

✓ PROVIDE INCREASED SECURITY FOR STAFF AND PATIENTS

- Ensure only authorised individuals have access.
- Deter theft and violence.
- Minimise vandalism.

✓ INVESTIGATE INCIDENTS AND IDENTIFY SUSPECTS QUICKLY

- Gain real-time access to live and recorded images.
- Provide uncompromised visual identification.

Network Video Door Station installed at entrance of nursery
