

PRODUCT SOLUTIONS BRIEF  
**COMMSCOPE**

HEALTHCARE FACILITY IoT ENABLEMENT

Through our strong global partnerships and alliances with manufacturers such as CommScope, we are able to present you with the following offering to meet your specific healthcare requirements, including enabling the Internet of Medical Things (IoMT).

**imVision®**

CommScope's imVision is an intelligent, standards-based system for managing the complex infrastructure cabling and connectivity that provides the foundation for connected and efficient building technologies. CommScope's imVision is compliant with the ISO/IEC 18598 Automated Infrastructure Management (AIM) standard. It combines intelligent hardware and software to provide users with unprecedented real-time visibility and control over their physical layer.

The results are better capacity management of ports and cabling, higher availability, reduced mean time to recovery, automated change management and faster time to value when deploying new IT assets, and improved efficiency and productivity of IT departments.

**CHALLENGE SOLVERS**

- Locates devices and problems on your network, providing end-to-end documentation of physical layer and recording all changes in real-time
- Enhances change management, simplifies audits and compliance and increases operational efficiency, uptime and productivity
- Does not require use of special patch cords

**THE ANIXTER APPROACH**

• **Network Connectivity**

Provide a standards-based IP platform that can run multiple applications, and be remotely managed and measured.

**THE COMMSCOPE SOLUTION**

**COPPER**

GS3 patch panel  
 GS6 patch panel  
 24-port 1U  
 48-port 2U

**FIBRE SHELVES**

LazrSPEED®  
 TeraSPEED®  
 1U tray  
 2U tray

**SOFTWARE LEVELS**

1K - 10K intelligent ports  
 Unlimited intelligent ports

**COMMSCOPE®**

**WHAT WE HEAR**

Healthcare stakeholders are dealing with a variety of challenges:

Interdepartmental **CONFLICT**

Supplier **INTEGRATION** competency

**MIGRATING** to an IP platform

Justifying the cost of **EFFICIENCY**

Limitations of **EXISTING INFRASTRUCTURE**

**Infrastructure as a Platform**  
 by Anixter

Infrastructure as a Platform by Anixter provides a comprehensive approach to maximising the potential of an automated healthcare facility, which starts at the physical layers.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Structured cabling
- Racks and components
- Automated infrastructure management
- Workstation platforms

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- iPatch intelligent copper and fibre panels
- imVision controllers
- imVision System Manager Software
- SYSTIMAX® solutions

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

## COMMSCOPE IMVISION FEATURES

### ✓ INTELLIGENT PHYSICAL INFRASTRUCTURE

- Tracks, in real time, all changes to physical-layer connections
- Issues alerts when changes occur on critical circuits
- Generates electronic work orders for guided deployment
- Discovers and tracks network connected devices

### ✓ JUSTIFIES THE COST OF EFFICIENCY

- Minimises otherwise very costly network downtime
- Ensures tighter security throughout the network
- Monitors and controls all sites from one location
- Simplifies audits and compliance

Web-enabled dashboard for ease of monitoring

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)

**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
