

PRODUCT SOLUTIONS BRIEF
COMMSCOPE

HEALTHCARE FACILITY IoMT ENABLEMENT

Through our strong global partnerships and alliances with manufacturers such as CommScope®, we are able to present you with the following offering to meet your specific healthcare requirements, including enabling the Internet of Medical Things (IoMT).

imVision®

CommScope's imVision is a sophisticated approach to managing the complex infrastructure cabling and connectivity that provides the foundation for smart building technologies. CommScope's imVision is compliant with the ISO/IEC 18598 Automated Infrastructure Management (AIM) standard. It combines intelligent hardware and software to provide users with unprecedented real-time visibility and control over their physical layer.

The results are better capacity management of ports and cabling, higher availability, reduced mean time to recovery, automated change management and faster time to value when deploying new IT assets, and improved efficiency and productivity of IT departments.

CHALLENGE SOLVERS

- Locates devices and problems on your network, providing end-to-end documentation of the physical layer and recording all changes in real time, which is especially important in healthcare networks
- Enhances change management, simplifies audits and compliance, and increases operational efficiency, uptime and productivity
- Provides additional security by monitoring and reporting all unscheduled patching—critical for healthcare network audits and compliance
- Does not require use of special patch cords

THE ANIXTER APPROACH

• **Network Connectivity**

Provide a standards-based IP platform that can run multiple applications and be remotely managed and measured.

THE COMMSCOPE SOLUTION

COPPER

GS3 patch panel
 GS6 patch panel
 24-port 1U
 48-port 2U

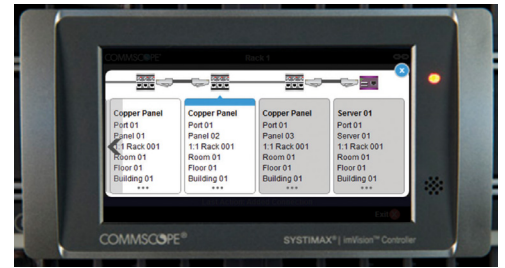

FIBER PANELS

SYSTIMAX HD panels
 SYSTIMAX UD panels
 1U and 2U options

SOFTWARE LEVELS

1K - 10K intelligent ports
 Unlimited intelligent ports

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Interdepartmental **CONFLICT**

Supplier **INTEGRATION** competency

MIGRATING to an IP platform

Justifying the cost of **EFFICIENCY**

Limitations of **EXISTING INFRASTRUCTURE**

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter provides a comprehensive approach to maximizing the potential of an automated healthcare facility, which starts at the physical layers.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Structured cabling
- Racks and components
- Automated infrastructure management
- Workstation platforms

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- iPatch intelligent copper and fiber panels
- imVision controllers
- imVision system manager software
- SYSTIMAX® solutions

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

COMMSCOPE IMVISION FEATURES

✓ INTELLIGENT PHYSICAL INFRASTRUCTURE

- Tracks, in real time, all changes to physical-layer connections
- Issues alerts when changes occur on critical circuits
- Generates electronic work orders for guided deployment
- Discovers and tracks network-connected devices

✓ JUSTIFIES THE COST OF EFFICIENCY

- Minimizes otherwise very costly network downtime
- Ensures tighter security throughout the network
- Monitors and controls all sites from one location
- Simplifies audits and compliance

Web- Enabled Dashboard for Ease of Monitoring

About Anixter: [anixter.com/aboutus](https://www.anixter.com/aboutus)

Legal Statement: [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
