

PRODUCT SOLUTIONS BRIEF
CHATSWORTH PRODUCTS

HEALTHCARE FACILITY POWER OPTIMIZATION

Through our strong global partnerships and alliances with manufacturers such as Chatsworth Products (CPI), we are able to present you with the following offering to meet your specific healthcare requirements.

eCONNECT® PDUs

CPI's eConnect® Power Distribution Units (PDUs) provide the ultimate solution for cabinet-level power distribution in evolving enterprise data centers. With innovative capabilities such as Secure Array™ IP Consolidation, eConnect PDUs offer the quickest and lowest cost deployment among all intelligent rack PDU solutions in the industry. With high ambient temperature ratings, patented Click Secure locking outlets and solutions that support up to 100 amps, CPI's eConnect PDUs are the ideal solution for any healthcare environment.

CHALLENGE SOLVERS

- Secure Array IP Consolidation reduces costs and decreases installation time by allowing you to link up to 32 PDUs under a single IP address by using standard Ethernet cables.
- It is optimized for use in ambient air temperatures up to 149°F (65°C) at the input power rating (kW) and features a low-profile design that does not block airflow.
- By reducing the risk of unplanned outages with patent-pending Click Secure Technology, this available feature adds IEC locking outlets, which securely fasten equipment to the PDU without the need for proprietary power cords.
- Integrates with environmental sensors to proactively monitor for correct temperature and humidity at the cabinet level.
- Integrates with EAC electronic locks providing cabinet-level access control, authentication and logging.

THE ANIXTER APPROACH

- **Monitored Power**
 Adopt an integrated power solution that can be metered, monitored and designed for continuity.

THE CPI SOLUTION

PDU TYPE	MONITORING TYPE	ACCESSORY OPTIONS
Basic Monitored (Pro) Switched (Pro)	Local Remote Outlet	Rack-mount brackets Sensors Electronic Locks Power IQ® (PIQ) for eConnect

Features such as Click Secure and a high-ambient temperature rating make CPI's eConnect PDUs the ideal solution for any IT environment.

CHATSWORTH PRODUCTS

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Meeting **ENERGY EFFICIENT** goals

PREVENTING accidental outages

Ensuring an **ALWAYS ON** environment

Reducing **UTILITY COSTS**

Restrictions of **LEGACY ELECTRICAL INFRASTRUCTURE**

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to retrofitting or building a critical power chain in your healthcare environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Six levels of functionality
- Single- and three-phase solutions
- Vertical and horizontal options
- Outlet type and quantity

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- CPI cabinet systems
- Remote infrastructure management (RIM)
- Electronic locks
- Temperature and humidity sensors

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

CPI ECONNECT FEATURES

✓ PREVENTS ACCIDENTAL OUTAGES

- Temperature, humidity and power measurements display on the local LCD screen
- 100 percent rated hydraulic magnetic breakers
- Optional locking outlets
- Custom faceplate colors that allow for quick identification of power feeds
- ±1 percent power metering accuracy

✓ REDUCE UTILITY COSTS

- Monitor voltage, power and current down to the outlet
- Optional remote outlet control
- Up to 100A input
- Available with Power IQ® (DCIM) to help monitor rack and power capacity
- Low-profile design which does not block airflow

Universal tool-less mounting makes installation of CPI's eConnect PDUs simple.

About Anixter: [anixter.com/aboutus](https://www.anixter.com/aboutus)
Legal Statement: [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
