

PRODUCT SOLUTIONS BRIEF
LEGRAND

HEALTHCARE FACILITY RISK MANAGEMENT

Itray has a patented all-aluminum construction.

Through our strong global partnerships and alliances with manufacturers such as Legrand, we are able to present you with the following offering to meet your specific healthcare facility requirements.

Legrand Itray

With patented all-aluminum construction, Legrand’s Itray is the only tray available that is 100% non-ferrous. When installed with Legrand’s aluminum hardware, the Itray is entirely non-magnetic, making it the ideal solution to meet the strict non-ferrous requirements of MRI rooms.

CHALLENGE SOLVERS

- Lightweight construction is easier and faster to install than steel ladder tray and is completely non-magnetic for patient safety.
- Patented design minimizes total tray width and creates a smooth transition between straight sections and fittings.
- Itray splice reduces hardware needs by 50%.
- Full range of accessories, including cable dropouts, barriers and more, provide a neat, orderly and code-compliant installation.
- Itray is UL-classified per NEC392.7, UL file No. E60796, and meets NEMA VE1 standards.

THE ANIXTER APPROACH

- **Property Perimeter**
Determine vulnerable areas around the property edge to deter external threats.
- **Reception and Registration Area**
Control the flow of visitors and patients to the facility and validate various levels of staff authorization.
- **Specialty Units**
Protect patients and comply with privacy regulations with attention to complex specialty units.
- **Emergency Room**
Improve staff safety and care through effective management of high-stress and high-traffic emergency settings.
- **Pharmaceutical Assets**
Achieve regulatory compliance and loss prevention by monitoring access and intrusion to pharmaceutical zones.
- **Biomedical and Diagnostics**
Protect valuable equipment and potentially harmful materials in biomedical and diagnostic areas.

THE LEGRAND SOLUTION

MATERIAL TYPE	CABLE MANAGEMENT	ACCESSORIES
Nonmagnetic aluminum Non-ferrous	Overhead Fully welded construction	Patented mid-span splice plate Cable dropouts Barriers

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

- Creating **SAFE** environments for patients and staff
- Preventing **THEFT** of medicine and radiological materials
- Achieving **REGULATORY COMPLIANCE**
- Preventing **CYBER THREATS** to patient records

Limiting physical building and network **ACCESSIBILITY**

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploy physical security infrastructure into your healthcare environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Straight sections
- Fittings
- Splicing
- Mounting

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Cablofil wire mesh management
- Wall and floor box brackets
- J-Hooks
- Cable and conduit fasteners

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

LEGRAND ITRAY FEATURES

✓ PATENTED DESIGN

- Stronger I-beam rung design reduces twist and deflection under load.
- Smoother finished side rail edge provides a natural cable pathway, making pulling cables easier.
- Ladder, trough and solid bottom system options are available.

✓ SPLICING MADE EASY

- Structural offset side design makes splicing strong and easy to install.
- Itray allows for mid-span splicing while maintaining full NEMA load class.
- Hardware needs are reduced by 50%.
- Installation is up to 30% faster than standard tray installation.

Itray is the ideal solution for a non-ferrous MRI room.
